I. Legal Conditions for International Students

General Information

Foreign nationals applying to study in the Czech Republic have to contact the Czech embassy in their own country (for a list of foreign embassies in the Czech Republic see the appendix) or **Ministry of Foreign Affairs of the Czech Republic** (<http://www.czechembassy.org>) in order to obtain up-to-date information on visa requirements for study purposes.

Visa

Due to the Czech Republic's membership of the EU, citizens of **European Union** (EU) countries (Austria, Belgium, Bulgaria, Cyprus, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Italy, Ireland, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden and United Kingdom), citizens of **European Economic Area** (EEA) countries (Iceland, Liechtenstein and Norway), and citizens of Switzerland, do not require any visa for any type of visit or stay in the Czech Republic.

At the point of entry to the CR, an EU citizen need present only a **travel document** at the request of the police. EU citizens entering the territory of the Czech Republic will be allowed to use national ID cards besides standard travel documents (e.g. ordinary passport, diplomatic passport, service passport). The currently operative EU regulations provide for no necessary minimum period of validity of travel documents or ID cards, neither do they stipulate that ID cards, used instead of travel documents, must have a machine-readable zone. To permit entry to its territory, the Czech Republic will accept all kinds of identity cards included in a handbook currently prepared by the EU that will contain specimens of the indicated national documents of all EU Member States.

Foreign nationals from outside the EU continue to need a visa. The residency visa for more than 90 days is valid for 1 year and allows the foreign citizen to travel repeatedly into and out of Czech territory. The residence of foreign nationals in the Czech Republic is governed by the Act on the Residence of Aliens in the Territory of the Czech Republic (law no. 326/99, as amended), which came into effect on 1st January 2000.

Under the terms of this law, it is not possible for first-time visa applicants to apply for a student visa on the territory of the Czech Republic, or even to pick up a visa they have previously applied for. Students therefore must apply for (and obtain) a visa before their departure for the Czech Republic.

Import of Goods

From the EU countries to the Czech Republic:

An individual can bring to the Czech Republic for his/her personal use selected goods tax free in the amount of:

- Pharmaceuticals: amount for personal use
- Weapons and explosives: only with license
- Alcoholic beverages: 10 litres of final alcoholic products, 20 litres of consumer ethyl alcohol and alcoholic intermediate products, 110 litres of beer, 90 litres of wine (of which 60 litres of sparkling wine)
- Tobacco products: 800 cigarettes, 400 cigarillos, 200 cigars, 1 kg of smoking tobacco
- Fuels: in ordinary tanks + 20 litres.
- Other products without restriction.

From the non-EU countries to the Czech Republic:

Goods to a value of EUR 175 per travelling person (or EURO 90 for a person under 15) qualify for customs relief. You may import into the Czech Republic the following goods in the following amounts:

- Pharmaceuticals: amount for personal use
- Weapons and explosives: only with license
- 50 g of Perfumes or 0,25 litres of Eau de Toilette
- Alcoholic beverages: 2 litres of wine, 1 litre of spirits and strong liqueurs, 1 litre of aperitifs, sparkling and liqueur wines
- Tobacco products: 200 cigarettes, 100 cigarillos, 50 cigars, 250 g smoking tobacco
- Fuels: in ordinary tanks; max. 10 litres.

For more information, please visit the web site of the Czech Republic Customs: <http://www.cs.mfcr.cz>

Export of Goods

Tourists do not usually need a license to take goods out of the Czech Republic when these goods are not intended for commercial purposes but for the personal use of the traveller or as a present. In some cases, however, export of goods is subject to special legal regulations (such as cultural heritage preservation, protection of items of cultural value, health protection, environmental protection, and safety protection) and in these cases the presentation of an export license is required by the customs office.

Tax/Duty Free

If tourists from non-EU countries (= foreign physical persons who do not have permanent residence on the territory of the EU and his/her stay in the Third Country – non-EU- is entered in the passport or other ID recognized as valid by the Czech Republic) make lump-sum purchases of over CZK 2,000 (these goods are not of a business nature and will be taken out of the territory of the EU) and if the goods in question are taken across the borders within three calendar months of the purchase, it is possible for them to apply for a VAT refund using the customs office confirmation within the usual term.

Reporting of Place of Stay in the Territory of the CR

Foreigners residing in the Czech Republic under a residence visa issued for less than **90 days** or under a long-term residence visa, and foreigners authorized to reside in the Czech Republic without a visa, are obliged to report the beginning, place and estimated duration of their residence at the local Aliens Police office (competent at the place of their residence) within three workdays following the date of their entry into the territory of the Czech Republic (this does not apply to aliens under 15 years of age, members of the staff of diplomatic missions or international governmental organizations accredited to the Czech Republic and their family members registered with the Ministry of Foreign Affairs).

Aliens - EU citizens are obliged to report to the police the place of their stay in the territory of the Czech Republic within **30 days**, provided the intended length of stay exceeds 30 days. The same applies to family members of EU citizens, provided they stay in the territory of the Czech Republic.

Temporary Residence Permit

If an EU citizen intends to stay in the territory of the Czech Republic for a period exceeding three months, he/she will be entitled (but not obliged) to apply to the police for a **special residence permit** (*temporary residence permit*). The issue of the said permit is not a condition for the stay of EU citizens in the territory of the Czech Republic, irrespective of the purpose of the stay. On the other hand, it has benefits for a foreign resident in situations where proof of a Czech address is required, e.g. for some rental and purchase agreements. If the application is handled affirmatively, the police issue the EU citizen with a permit card *Průkaz o povolení k pobytu státního příslušníka členského státu Evropských společenství* (cover in purple colour). Citizens of Switzerland, Norway, Liechtenstein, Iceland and their family members who are not EU citizens will be issued by the police residence permit cards *Průkaz o povolení k pobytu* (cover in green colour).

Application basic requirements:

- Completed application
- Travel document or EU ID
- Documents related to the purpose of the stay (= CU study confirmation letter)
- Two identical photographs (passport size)
- Proof of health insurance valid in the Czech Republic
- Affidavit that you will not be in receipt of social benefits.

Detailed information and the application forms may be requested by e-mail, fax, phone, or mail. The requested documents will be delivered by mail.

Work Permit

EU students do not need a work permit to work in the Czech Republic. Other international students (non-EU) are required to hold a work permit to undertake paid work of any kind.

II. Welcome to the Czech Republic

Cultural Shock

Leaving home and travelling to study in a different country is an exciting challenge but it can be a stressful experience. Almost everyone experiences "cultural shock" to some degree. Cultural shock is the term used to describe the disorientation and frustration many people experience when they enter a culture different from their own. It includes the shock of new unfamiliar environment, meeting a lot of new people who speak foreign language and finding out that things are done differently. Separation from your family and close friends is also an important factor.

Cultural shock can be expressed in a variety of ways. **Symptoms** may be both physical and psychological such as: feelings of sadness, loneliness, physical aches and pains, insomnia or the desire to sleep a lot, feeling vulnerable, anger, etc. People who are experiencing culture shock complain about all aspects of life - the food, the weather, the people, and idealize their own home country. Many who experience it do not even realize that they are suffering from it; people often do not fully understand culture shock until they return home to their country, when they are surprised to see their own country with new eyes.

The process of personal adaptation to new environment has distinct stages which last a different length of time for each one of us.

1. **Excitement** (sometimes called a Honeymoon Period)
Everything is new and exciting. You find everything interesting and people seem to be friendly.
2. **Crisis**
Everything is difficult and confusing. You feel homesick and isolated and complain about the new country. This is the stage we hear referred to as "culture shock."
3. **Adjustment** (turning point)
You feel more confident and relaxed. Customs and traditions become clearer; the culture in general seems more familiar.
4. **Integration**
You have recognized that the new culture has much to offer. You find differences valuable and important. You are able to function in both cultures with confidence.

It is important to realize that cultural shock is quite normal and temporary. However, here are some things that might help you to minimize those effects.

- Obtain as much information about the country, people and culture as possible
- Keep in mind that this is a normal experience
- Keep in touch with your family and friends
- Have familiar things around you that have personal meaning
- Make friends with local students and other international students
- Talk to people in your department and/or faculty
- Contact the international club
- Do your favourite sport, go to the cinema, relax
- You might also consider contacting the Psychological Counselling Centre for International Students

Even though that cultural shock may be a very tiresome period, it also has positive aspects. Studying abroad can be a significant learning experience. You will meet a lot of new people, make new friends and see your own culture from a new perspective. You might even find a great many customs, ways of doing and saying things, and personal attitudes which you will enjoy and miss after you get back home.

Prague

Getting to Prague

By air

Prague has only one international airport - *Letiště Ruzyně (Ruzyně Airport)* which is located to the north-west of the city, about 17 km from the city centre. The airport has no metro or train connection with the city centre and is only served by buses and taxis.

City Bus No. 100 – a special fast and frequent service – connects the airport with the Zličín metro station (yellow line-B) from which you can get directly into the centre of Prague.

Local Bus No. 119 connects the airport to metro station *Dejvická* - green line A. The bus runs between 5:30 and 23:30, approximately every 10 - 20 minutes. Tickets cost CZK 26 and are available for purchase from the newspaper stand or the vending machines in front of the terminal.

Shuttle minibus services to the closest metro station (metro station *Dejvická* - green line B) are provided every half hour 7.30 – 19.00, by CEDAZ Ltd. (tel./fax: +420 221 111 111; web site:

<http://www.cedaz.cz/about-transport-services.php>), at a cost of CZK 90, including one piece of luggage (travel time is 30 minutes).

More information on Ruzyně Airport and flight timetables is available on the web site of the Czech Airports Authority at:

http://www.prg.aero/en/site/uvodni_stranka.htm.

By train

The Czech Republic has one of the most extensive railway networks in Europe. You can reach almost every small town by rail and trains are indeed a romantic way of travelling around the country. Travel can be rather slow, however, often involving several changes. The quickest way of travelling along the major lines is on express trains or fast trains (rychlík). Local passenger trains (osobní vlaky) stop everywhere and are very cheap. Direct rail links connect Prague with more than 20 European cities, including Munich (journey time – 5 hours), Vienna (journey time is 4 hours 30 minutes), Berlin (journey time – 5 hours 30 minutes) and Paris (journey time – 10 hours). Seat reservations are strongly recommended on all services.

International trains (EC, IC) arrive at two railway stations in Prague:

- Praha - Hlavní nádraží (The Main Railway Station)
- Praha - Holešovice (Holesovice Railway Station)

Both are situated in the centre of Prague, near a metro station (red line C).

More information on train and bus connections you can find on the web site: <http://www.vlak-bus.cz> (National Timetable Information System).

By bus

The Czech Republic has connections from/to major European cities several times a week. International buses usually arrive at the main Bus Station Florenc (on metro station Florenc, yellow - B and red - C lines).

Other major bus terminals are as follows:

- Bus station Na Knížecí – metro yellow line B, Anděl stop
- Bus station Holešovice ČSAD – metro red line C, Nádraží Holešovice stop
- Bus station Roztyly – metro red line C, Roztyly stop
- Bus station Želivského - metro green line A, Želivského stop
- Bus station Černý most – metro line yellow line B, Černý most stop

All these bus terminals are easily accessible by Metro (the name of the stop usually corresponds with the name of the terminal).

More information on bus and train connections you can find on the web site: <http://www.vlak-bus.cz> (National Timetable Information System).

Prague Public Transport

Prague public transport system consists of the metro, trams, city buses and the funicular to Petřín.

The metro (subway) is very cheap, efficient and fast. The Prague metro system consists of 3 lines (green line - A, yellow line - B, red line - C) with interchange metro stations *Muzeum* (A-C), *Můstek* (A-B), and *Florenc* (B-C). The metro operates daily between 5.00 and 24.00. Trains leave stations every 2-4 minutes during rush hours on working days, otherwise every 4-10 min.

Trams operate between 5.00 and 24.00. The average interval between most trams is app. 8 minutes during rush hours on working days; otherwise every 10 minutes. During the weekend the trams leave every 7 – 10 min. A uniform interval of 30 minutes applies to night service (24.00 – 4.30). *Lazarská* stop is the central interchange point of all night trams.

The interval between most **buses** is 5-15 min from Monday to Friday during rush hours. Otherwise the buses leave every 10 - 20 minutes in the morning and 15 - 30 minutes in the evening. Weekend intervals are 10 - 30 minutes. Night buses leave every 30 - 60 minutes depending on the line number.

The funicular (lanovka) to *Petřín (Petrin Hill)* operates daily 9.00 - 23.30 (from October to March 9.00 - 23.20). It runs every 10 minutes in the summer season (from April to September) and every 15 minutes in winter season (from October to March).

Taxi

Unfortunately, taxi drivers in Prague do not have a good reputation. There is no standard price for taxi services, but drivers are required to display their prices, usually on the door. A reasonable price is CZK 25 per km, but it is a good idea to agree on a price before you commit to a ride, and be sure that the meter is running while you are in the taxi. Usually reliable companies whose dispatchers speak English are *AAA Radiotaxi* (tel: +420 222 333 222), *Profi Taxi* (tel: +420 261 314 151), and *Halo Taxi* (tel: +420 244 114 411).

III. Charles University

Charles University – Past and Present

Charles University (CU) **was founded** in 1348. Thanks to Charles IV's foresight and his good relations with Pope Clement VI, the newly founded university had four faculties - theological, legal, medical and arts – a pattern which corresponded to medieval concepts of a complete university. Over the centuries, as with all other universities, CU has experienced periods of great success, and times of trouble and decline.

Today the University is composed of seventeen relatively independent and self-governing faculties, located in Prague, Pilsen and Hradec Králové. Its faculties educate over 47,000 students, and over 4,500 international students coming to the university to obtain their degree. Teaching and research is carried out by hundreds of specialists in the various disciplines, from humanities to medicine and natural sciences. The prime purpose of the University is the diffusion of learning and protection of acquired knowledge, the cultivation of free thought, independent academic research and the arts, and the encouragement of the free creative spirit of human society.

Charles University is a member of many **international organizations** and university networks, such as: EAIE (European Association for International Education), UNICA (Network of Universities from the Capitals of Europe), DCR (Danube Rectors Conference), IMHE/OECD (Institutional Management in Higher Education), IAU (International Association of Universities), EUA (European University Association), Coimbra Group and Europaeum Common Fund. CU has exchange and collaborative links with institutions of higher education worldwide, too. It has a growing network of partnerships with universities and colleges around the world, supporting student and academic staff exchange, work on joint courses and collaborative research.

The study programmes at CU are organized in the form of regular full-time study, rather than in the form of part-time study. The University provides all types of study programs – bachelor, master's and doctoral. However, master's study programs are the main type of study at all faculties of the University. Doctoral study programmes are organized by the University in collaboration with experts from outside the university, especially from the Academy of Sciences of the Czech Republic.

Management and Structure of the University

Charles University is led by the Rector prof. RNDr. Václav Hampl, DrSc. In addition to the Rector, university governance includes several bodies - the Academic Senate, the Academic Board, Managing Board and other advising bodies of the university.

The Rector manages the university, represents it, and negotiates in its name. He is answerable to the Academic Senate of the university and also, in certain matters defined by the law, to the Minister of Education. The Rector is represented by vice-rectors and by the bursar. Each **Vice-Rector** is assigned a specific area of responsibility and has a committee which acts as an advisory and consultation board for the area concerned (study affairs; scientific and creative activities; academic qualifications; international relations and mobility; public affairs; development).

The **Bursar** is responsible for the economic and administrative affairs of the university, and runs the Rectorate.

The Academic Senate is composed of elected representatives of the faculties including students and non-teaching academic staff. The senate approves all academic and administrative decisions on University matters and also submits its own suggestions. The **Academic Board** consists of academics and external experts, leading personalities from business, research, culture and other areas. The board acts as the Rector's advisory committee. The **Managing Board** is responsible for the development plan, university finances and budget. It also approves the Annual Reports.

In addition to its faculties, which are the basic units of the University, and the Rector's Office, Charles University has further elements. These are research, teaching, developmental, economic and information centres (institutes) and special facilities.

Charles University has seventeen **faculties** which have independent decision-making powers, except in matters which fall within the jurisdiction of Charles University as these are defined in Law No. 172/90 Coll. on higher education or in the Statutes of CU. Each faculty is headed by **the Dean**, who manages it, represents it and negotiates in its name. Each dean is responsible to the academic senate of his or her faculty, and also to the rector to the extent defined by the Statutes of CU.

Evaluation and Grading System

Study results are evaluated by examinations, supervised written work, project work or colloquia. Examinations may be written, oral or combined.

The grading scale is as follows:

A (excellent)	v ýborn ě
B (very good)	velmi dob ě
C (good)	dob ě
F (fail)	nevyhov ěl

Charles University also uses the ECTS (European Credit Transfer System). The ECTS is a credit system based on relative student workload. This involves lectures, practicals and self-study and includes all the work required to prepare for examinations. The basic allocation of academic credits in ECTS is 60 credits per year of studies, i.e., 30 credits per semester. Where a course is completed by a study requirement other than an examination (e.g. course work or a seminar paper), it is not graded, but is recorded as a Z ápočet (Credit), with only two possible outcomes: Pass or Fail.

Health Insurance and Health Services

EU nationals

Students arriving from EU member states should ensure that they request a European health insurance card (EHIC) from their local health authorities before departure from their home countries.

Nationals of E.U. countries who are staying temporarily in the Czech Republic are entitled to receive URGENT necessary medical treatment free of charge. To obtain treatment under the provisions of the European regulation it is important to contact medical institution (doctor, dentist, hospital), which is covered by the contract with the public health insurance system (most of them do - details can be obtained from the health insurance funds).

Your European health insurance card (EHIC), or Provisional certificate has to be submitted to attending physician. If no of above mentioned documents are presented, the physician can insist on cash payment. The doctor will normally ask you to confirm your expected length of stay in the territory of the Czech Republic and will advise you to choose one of Czech contracting health insurance funds.

For specialist treatment, you need a referral from a GP. You have to pay 30 CzK for medical treatment or for standard dental treatment. For some extra dental manipulation and materials participation is to be paid in extra particular amounts. Prescriptions are issued by a doctor, and may be filled at a pharmacy. You may have to contribute to the cost of your drugs or medicines, and this cost is not refundable. To get hospital treatment, you need a referral from a GP except in cases of emergency, when you can go directly to the hospital. Transport to the hospital is covered by the insurance system and is provided free of charge. In case of urgent medical transport or in case of treatment by doctor of emergency service it is also necessary to present your European health insurance card, E111 or Provisional certificate. Please note that non-urgent or elective treatment which can reasonably be postponed until the persons return to his/her country are not covered, and for these eventualities we recommend you take out extra medical or commercial travel insurance with an insurance provider in your home country.

Non-EU nationals

Non-EU students should ensure that they have private medical insurance or they must expect to pay cash for all medical care. We strongly urge all non-EU international students to consult with their medical insurance company prior to travelling abroad to confirm whether their policy applies

to the Czech Republic and whether it will cover emergency expenses such as a medical evacuation.

If you need to visit a general practitioner, gynaecologist or dentist, you can go to the following health centre:

Pharmacies in the Czech Republic

Non-prescription drugs and medicines are sold only in pharmacies. They are not available at supermarkets, as in many West European countries. Pharmacies may be recognized by the prominent green cross displayed over the shop-front. Many have staff who can speak English or German, and are used to offering advice to tourists (especially in the city centres).

Validity of Medical Prescriptions:

- A prescription from emergency service is valid for 24 hours
- A prescription for antibiotics is valid for 5 days
- A prescription for opiates is valid for 3 days
- Other prescriptions are usually valid for one week

Cost of Living

The cost of living in the Czech Republic is on average comparable to that of other Central and East European countries. A single student is advised to have available approximately Kč 8 500 (app. 300 €) per month to cover food, basic transport and accommodation.

Rent	CZK 3 000 - 7 000
Food	CZK 3 800 - 4 200
Transport	CZK 250 - 300
Leisure Time	CZK 700 - 1 000
Total	CZK 7 750 - 12 500

Be aware that the level of rent varies depending on which city you live in, whether you use the University dormitory or private place and if you share the flat or not. The final cost of living, of course, depends on your personal spending habits.

Money and Banking

Money

The currency is the Czech crown (Koruna ceska – Kč/CZK. The following denominations are in circulation:

Notes: 50; 100; 200; 500; 1,000; 2000 and 5,000 Kč

Coins: 1, 2, 5, 10, 20 and 50 Kč.

The Czech Republic is still what is considered a “cash economy”, which simply means that most transactions are made in person, in cash. Nearly 90% of your purchases even in Prague will still be made by cash in the local currency, although many large stores (international supermarkets) accept most major bank cards.

Banks

There are branches of all the main Czech as well as foreign banks such as:

ČSOB - <http://www.csob.cz>

Komerční banka - <http://www.kb.cz>

Česká spořitelna - <http://www.csas.cz>

Students of Charles University who open an account with the ČS bank can be issued a Maestro Univerzita Karlova Student+ international electronic card for personal use. The card is designed for students aged 18 – 30 who are enrolled in bachelor, master or doctoral study program (full-time students only). The cardholders are eligible for a variety of discounts with the bank business partners. For more, see the bank web site.

Citibank – <http://www.citibank.com>

and other smaller branches where you can open an account. Bank opening hours are generally 8 am to 5 pm Monday to Friday and some banks are open on Saturday morning. Nearly all banks have 24-hour ATM cash machines, and a foreign exchange desk where you can exchange your currency and travellers cheques.

Food and Shopping

Food

is generally cheaper to buy in supermarkets than in small shops. Shops are generally open 8 am – 6 pm Monday to Friday. On Saturday, usual opening hours are from 8 am to 12 am but increasingly more shops are staying open for longer hours seven days a week. Various small shops and supermarkets stay open late at night. Generally small shops are closed on Sundays but larger stores and supermarkets are usually open for part of the day. To give you an idea of cost, a loaf of bread costs about CZK 20, milk costs about CZK 15 a litre and butter about CZK 25.

Tipping

is normally expected in a restaurant, bars but also at hairdresser's, barber's and others providing such services. Tip approximately 10%, rounded up to the next 10 crowns. However, you should not leave change on the table – it's just not done. Instead, name the total amount you intend to pay, including the tip, when you are given the bill.

Post, Mail and Telecommunication

The Post Office (Pošta)

delivers letters and parcels directly to your address. If you wish to send letters you can use any of the many orange post-boxes scattered throughout the city.

Stamps for letters posted to addresses in the Czech Republic cost 10 CZK. Basic postal rates to Europe are currently CZK 17 (postcards and letters up to 20 g). Basic airmail rates to overseas destinations (America, etc.) are CZK 18 (postcards and letters up to 10g) or CZK 18 (letters up to 20g). Stamps and information about the parcel-post and other postal services can be obtained at any local Post Office (8 am – 6 pm from Monday to Friday; 9 am - 11 am on Saturday). Some shops also sell stamps.

The main post office is situated in Jindřišská Street No. 14 in Prague 1, just a few meters from Wenceslas Square (Václavské náměstí). The office is open from 2.00 to 24.00, although it operates a reduced service during the night. Information: +420 221 131 111.

More information in English you can find on the web site:

<http://www.cpost.cz/>

Telephones

The country code for calling the Czech Republic is +420. Since 2002 there are no city codes. Within the Czech Republic you just dial the 9-digit number. Call boxes on the street are usually glass structures with yellow roofs, and may be found all over the republic. Phones are also located at metro stations and major post offices.

When you are calling from a public phone you will need a telephone card, which you insert into a slot in the lower part of the telephone. Follow the prompts on the display which are always available in several languages. There are also coin-operated telephones, but these tend to be somewhat less reliable and hard to find. The calling cards are available from larger post offices, airports, railway stations, metro stations, big department

stores, kiosks, and hotels. There are several types of these cards with various numbers of units.

Currently three mobile telephone network operators function in the Czech Republic: O2, T-mobile and Vodafone. For using a mobile telephone in the Czech Republic it is advantageous to use prepaid cards, which are cheaper than in West European countries.

EU driving licenses: A foreigner, who is the holder of a driving license of European Communities and has permission for long term stay, is obliged within 3 months of the day of permission for the long

term stay to apply to the appropriate local authority of locality with extended activity for issuing the driving permit. The appropriate local authority of locality with extended activity issues the driving permit if the driving permit of European Communities is valid.

DL from other states: For information, please contact the appropriate local authorities in your home country; you may also contact appropriate Czech local authority of locality with extended activity – drivers' department.

Documents

Always carry your documents: driving license, identification, and vehicle registration documents with you in your car as it may cost you a fine if you do not have them. You must purchase a sticker to travel on Czech motorways. You can buy annual, 2-month, or 15-day passes, and they are available at border crossings, post offices and larger gas stations. Place the sticker on the lower left corner of the windshield. Rented cars will have this sticker already.

The Czech Republic has a ZERO tolerance law for driving with any alcohol in your bloodstream. Doing so is punishable by an on-the-spot fine. Use of a seatbelt is required. Children under 12 may not ride in the seat next to the driver. If you are involved in a traffic accident, do not leave the scene. You must wait until the police arrive to conduct a full investigation. Call 158 to report the accident and any injuries.
