- The University uses traditional letter grading: A-work of superior quality; B-work better than average; C-average work; D-work below average, but barely passing; F-failure. Other symbols used are: I-incomplete; N-work on the course may be continued in later semesters (when work is completed, the final grade assigned applies to all semesters of the course); W-withdrawal from a course.
- Classes are assigned credit hours. Credit hours determine how long a class period is in one week, and how many credits the student will accumulate in one semester. Students at the undergraduate level must register for at least 12 credit hours; students at the graduate level must register for at least 9 credit hours.
