Ph.D. Programmes

Postgraduate Doctoral Studies, one of the priorities of CU, train students in independent research work and provide them with the appropriate qualifications in the given academic discipline. Those who successfully complete doctoral studies, usually taking three years and culminating in a doctoral examination and the public defence of doctoral (dissertation) thesis, obtain the academic title of Doctor (Ph.D. or Th.D. – in case of the theological studies).

Entry into doctoral programmes is based on submission of certificate of graduation from master’s studies and an entrance examination. More specific entry requirements are determined in accordance with the law by the Dean of the faculty.

Protestant Theological Faculty

Charles University in Prague, Protestant Theological Faculty
Černá 9, P.O. Box 529, 110 00 Praha 1, Czech Republic
phone: +420 221 988 216; +420 221 988 211; fax: +420 221 988 215

web: http://web.etf.cuni.cz/ETFENG-1.html
Contact person: prof. ThDr. Martin Prudký

Th.D. and Ph.D. Programmes

The programme is open to those who have graduated from a university or other institute of higher education with a master's degree in Protestant Theology (or a related discipline) and have given proof of their academic abilities. Applicants also need to have passed examinations in at least one of the languages important for European theology, other than their mother tongue (i.e. German, English, French, Italian, or Spanish).

Postgraduate doctoral studies consist of research activity leading towards a written dissertation, broadening and deepening the student's knowledge in the field of study, and mastering the techniques of academic work. The dissertation may be written in another language than Czech if there is an appropriate supervisor for that language. Students are also required to attend certain lectures, seminars or convocations, pass an examination in a second language, write various papers, reviews, or literature searches, pass three examinations in theological disciplines, and
publish articles in specialist journals. The individual study plan is worked out together with the student’s supervisor. Students who fulfil these requirements, and successfully submit and defend their dissertation, are awarded the title of Doctor of Theology (Th.D.) or the title of Doctor of Philosophy (Ph.D.) by Charles University in Prague.

Postgraduate doctoral studies (PDS) at the Protestant Theological Faculty are offered in one of the following four fields:

• Biblical Studies (comprising Old and New Testament); Title Th.D.
• Systematic and Practical Theology (comprising dogmatics, ethics and all practical disciplines such as homiletics, catechetics, poimenics, ecumenics, etc.); Title Th.D.
• Historical Theology and Theology of Religions (comprising church history and history of dogma, and the comparative study of religions); Title Th.D.
• Philosophy (This programme will probably be offered in the academic year 2014-2015). Title Ph.D.

The normal length of postgraduate doctoral studies is four years. The maximum duration of the studies is nine years.

Application procedure

Potential applicants should first contact the appropriate Head of Department (see the web site) for the field in which they wish to write their dissertation, giving details of the topic for the dissertation and the language they will study in. The Department will then consider if there is an appropriate person available to act as a supervisor. If so, and if possible in consultation with the prospective supervisor, the applicant should submit a written application including the following:

• application form
• curriculum vitae including a detailed description of theological studies undertaken so far
• certified copy of Master's degree
• if possible recommendation from a previous academic supervisor or teacher
• an outline of the proposed dissertation project, including the topic, field, methods and aim of the research (2-3 pages)

Entrance examinations then usually take place in June, consisting of an interview with members of the Faculty’s Inter-Disciplinary Council for Postgraduate Studies, in which the applicant defends the outline of his or her proposed dissertation project.

Further information may be also obtained from the Vice-Dean for Research and Doctoral Studies at: prudky@etf.cuni.cz.

Application form: on the web site
Application deadline: April 30, 2015
Annual tuition fee: CZK 70,000**
Hussite Theological Faculty

Charles University in Prague, Hussite Theological Faculty
Pacovská 4, P.O. Box 56, 140 21 Praha 4, Czech Republic

Contact person: Karolína Havelková

The First Faculty of Medicine in Prague implements postgraduate scientific education together in cooperation with the 2nd Faculty of Medicine, 3rd Faculty of Medicine, Faculty of Medicine in Pilsen and Faculty of Science as well as with biomedically oriented institutes of the Academy of Sciences and Research Institutes of the Ministry of Health.

Ph.D. Programmes are available either as full-time or part-time studies in:

• Biochemistry and Pathobiochemistry
• Biomedical Informatics
• Cell Biology and Pathology
• Developmental and Cell Biology
• Experimental Surgery
• Gerontology
• Human Physiology and Pathophysiology
• Immunology
• Medical Biophysics
• Molecular and Cell Biology, Genetics and Virology
• Neurosciences
• Parasitology
• Pharmacology and Toxicology
• Preventive Medicine
• Bioethics
• Microbiology
• History of Medicine
• Imaging Methods in Medicine
• Specialization in Health Service - Addictology
• Psychology - Medical Psychology and Psychopathology
All information on admission procedure to Doctor (PhD) degree study programmes, forms, required documents (enclosures to the application) etc., is available on the web site: http://www.lf1.cuni.cz/ - section Doctoral Studies – Current information.

How to apply:
• First, select the appropriate field from the courses offered and select and contact supervisor.
• Please note that the application form has to be accompanied by a recommendation letter from the supervisor when applying for studies
• Application has to be submitted to the contact person before April 30 of the particular year.
• The interview takes place within June of the same year.

Application deadline: April 30, 2015
Annual tuition fee: CZK 50.000**

Second Faculty of Medicine in Prague

Charles University in Prague, 2nd Faculty of Medicine
V Úvalu 84, 150 06 Praha 5, Czech Republic

Contact person: Mrs. Ivana Tinková

The Faculty provides postgraduate doctoral studies in biomedicine together with the 1st Faculty of Medicine, the 3rd Faculty of Medicine, the Faculty of Science, the Faculty of Physical Education and Sports, with Institutes of the Academy of Sciences of the Czech Republic oriented to biomedicine and the departmental research institutes of the Ministry of Health of the Czech Republic. The aim of the postgraduate education is the preparation of graduates of the Faculty for individual work within the range of basic and specialized research work in medicine. The conception of the studies and the requirements in each field are set by the Specialty Council composed of specialists of all participating institutes. The programme is open for both Czech and foreign graduates of the universities. The education is provided in the full-time form and in the combined form. The full-time form takes at least four years; the combined form takes at least four years.

Please note that all prospective doctoral students have to contact the particular department first in order to locate his/her supervisor. When applying for studies the application form has to be accompanied by a recommendation letter from the supervisor otherwise the application cannot be processed.

Ph.D. Programmes in Biomedicine – study fields:
Either full-time or part-time studies in:
• Biochemistry and Pathobiochemistry
• Biomechanics
• Biomedical Informatics
• Cell Biology and Pathology
• Experimental Surgery
• Gerontology
• Human Physiology and Pathophysiology
• Immunology

The faculty and the faculty hospital share in postgraduate doctoral studies in medicine. The faculty is accredited to offer doctoral studies in a number of medical disciplines.

Programmes offered in English:
• Anatomy, Histology and Embryology
• Hygiene, Preventive Medicine and Epidemiology
• Medical Pharmacology
• Physiology and Pathophysiology
• Pathology

All study programmes are to be studied 4 years.

Entrance examination

The entrance examination takes the form of an interview in which technical and language skills are examined primarily as well as the readiness of candidates for independent scientific work in their chosen field.

Interviews comprise:
1. English language (0-20 points)
2. Specialized topic (0-40 points)
3. Examination from the field (0-30)
4. Publications, lectures (0-10 points)

Conditions of admission to study:
1. Completed university master’s degree programme, not later than the date of the beginning of the academic year October 1, 2015.
2. Submitting an application according to the requirements of the Charles University Faculty of Medicine in Pilsen by April 30, 2015.
3. Interest in work in selected subject of research and ability to do scientific work.
4. The passing of an entrance interview with at least 70 points.

Application deadline: April 30, 2015
Annual tuition fee: CZK 50.000**
The faculty and the faculty hospital share in postgraduate doctoral studies in medicine. The faculty is accredited to offer Ph.D. studies in a number of medical disciplines.

Programmes offered in English

Fields of study:
- Anatomy, histology and embryology
- Medical biology
- Physiology and pathological physiology
- Internal medicine

All study programmes are to be studied 4 years.

All information on admissions, form and contents of admission examinations etc., is available on the notice board of the Faculty and on the web site: http://www.lfhk.cuni.cz/ - section Uchazeči o studium / Doktorské studium or Applicants - Doctoral study/Ph.D – for study in ENG.

Application deadline: April 30, 2015
Annual tuition fee: CZK 50,000**

Application form is available through above mentioned website.

Enclosures (more information on the web site):
- professional curriculum vitae
- officially verified certification of completed master degree
- list of scientific publications
- short information of intended study topic (can be agreed with tutor)
- other documents specified by the particular Scientific Board.
Faculty of Law

Charles University in Prague - Faculty of Law
Nám. Curieových 7, 116 40 Praha 1, Czech Republic
phone: +420 221 005 202; +420 221 005 334; fax: +420 224 810 472

Theoretical Legal Science

Three branches of doctoral study in English will be opened in the academic year of 2015/2016.

International Law
Guarantor: prof. JUDr. Pavel Šturma, DrSc., Head of the Department of International Law
Contact person: JUDr. Věra Honusková, Ph.D., Honuskov@prf.cuni.cz

Department of International Law of the Faculty of Law of Charles University in Prague offers a Ph.D. programme in Public International Law. The programme is oriented on theoretical questions of international legal doctrine, as well as selected topical issues of contemporary International Law, incl. human rights, International Criminal Law and protection of international investments.

General course – lectures:
- History of the Czechoslovak and Czech International Legal Doctrine
- International Judicial Bodies, Concurrent Jurisdiction
- International Criminal Law and Justice
- International Protection of Children in Armed Conflicts
- International Protection of Linguistic Minorities
- Settlement of International Investment Disputes

Possible topics of doctoral thesis
- Fragmentation of International Law
- Interpretation and Application of International Treaties in the Czech Republic
- International Security and International Law
- International Criminal Court and the Crime of Aggression
- International Protection of Linguistic Minorities
- International Investment Arbitration and EU Law

European Law
Guarantor: Prof. JUDr. PhDr. Michal Tomášek, DrSc., Head of the Department of European Law
Contact person: Doc. JUDr. Richard Král, Ph.D. LL.M., Král@prf.cuni.cz

Department of European Law of the Faculty of Law of Charles University in Prague offers a Ph.D. programme in European Law. The programme is oriented on theoretical questions of European Union and European Union Law including impacts on international trade or economic, monetary and financial issues. The programme offers also focus on human rights issues in European context including a position of individuals in the EU Law.
Possible topics of doctoral thesis

• Application of EU Law in the Czech Republic
• The Principle of Subsidiarity and the Role of National Parliaments in EU Law
• Minority Rights in the European Union
• The Concept of EU Citizenship
• Exhaustion of Intellectual Property Rights
• EU Competition and Intellectual Property Law
• European Monetary Law
• Europeanization of Criminal Law

Environmental Law

Guarantor: prof. JUDr. Milan Damohorský, DrSc., Head of the Department of Environmental Law
Contact Person: JUDr. Michal Sobotka, Ph.D., Sobotka@prf.cuni.cz

Department of Environmental Law of the Faculty of Law of Charles University in Prague offers a new Ph.D. programme in Environmental Law. The programme is oriented on theoretical and practical questions of the International, European Union and Czech Environmental Law and Policy, including overlaps to the Land Law, Agriculture Law, Natural Resources Law, Energetic Law and Territorial Planning Law. The programme offers also focus on constitutional, criminal, administrative, civil and financial law relations and consequences of environmental matters.

General course – lectures:

• Principles of Environmental Law
• Ownership and Environment
• System and Sources of Environmental Law
• Right to Favourable Environment
• Environmental Liability
• Legal Protection of Air, Water and Land

Possible topics of doctoral thesis

• Liability for Environmental Damage
• The Right of Information and Public Participation in Environmental Decision Making
• Legal Instruments for the Protection of Biodiversity
• Role of Courts in Environmental Protection
• Economic Instruments of the Protection of the Environment
• Fresh Waters Legal Protection
• Environmental Criminal Law
• Climate Change from the Legal Perspective

Requirements for the admission to the doctoral programme of study:

• Applicants will be admitted solely upon individual assessment in the admission procedure. The doctoral programme of study is directed towards theoretical research and autonomous creative work in the respective branch of expertise.
• Applications are accepted until April 30, 2015 at the latest.
• The electronic application forms should be submitted by means of the Charles University Information system at https://is.cuni.cz/studium/.
• Immediately after completing the electronic application form in the Information System of Charles University send the application by mail to the following address

Univerzita Karlova v Praze, Právnická fakulta, Referát doktorského studia
Nám. Curieových 7, 116 40 Praha 1
or submit the application in person at the Filing Office of the Faculty of Law including the following:

a) a notarized copy of a university diploma along with the diploma supplement (in case of earlier graduates the certificate of state exam) verifying the graduation from a Master’s or equivalent programme of study; this duty does not apply to graduates of Master’s programme of study at Charles University Faculty of Law who graduated after the 1st January 2008;

b) a detailed (professional) curriculum vitae, containing information on the applicant’s professional activities (experience in legal practice) along with a list of publications (if applicable);

c) an outline of the applicant’s dissertation of approximately 7 - 8 pages signed by the expected advisor; the outline of the dissertation must be also sent in electronic form to the guarantor of the relevant branch of study.

The application should be appended with a notarized copy of a university diploma along with the diploma supplement verifying the graduation from a Master’s or equivalent programme of study. If the applicant has not yet completed a Master’s programme at the time of filing the application, s/he must submit the required documents not later than on September 30, 2015.

For applicants whose submitted applications for recognition of higher education in a foreign country were not decided by 30th September 2015, the period for verification of compliance with the admission requirements ends on 23rd October 2015. If a certificate of regular completion of higher education is not submitted to the doctoral study office before or on this date, it is not possible to hand over to the applicant the decision of the dean on the admission.

Where documents proving the completion of higher education have been issued by a higher education institution with its seat in the Czech Republic, Slovakia, Poland, Hungary and Slovenia the application should be appended with a notarized copy of a university diploma.

Where documents proving the completion of higher education have been issued by a higher education institution with its seat in a country other than the Czech Republic, Slovakia, Poland, Hungary or Slovenia, a certificate of recognition of higher education, or its part, by the Czech Republic must be submitted. Information on the procedure for obtaining the recognition of higher education may be retrieved from http://www.cuni.cz/UKEN-16.html

The documents must be submitted along with their certified translation into Czech.

The applicant must submit an outline of his/her dissertation in English (approx. 7 - 8 pages) and attach his/her signature and signature of the expected advisor.

**Entrance examination:**

- **Regular date:** June 12, 2015
- **Substitute date:** June 22, 2015
- **Form of exam:** oral
- **Form of study:** full-time or combined
  (in the former case a conditional consent of the department head will be submitted with the application)

In the oral entrance examination the applicant shall sufficiently demonstrate his/her professional and academic capacity to participate in the programme chosen and to autonomously conduct scientific research.

Admission of a particular applicant will be decided by the Dean.
Duration of study: generally 3 years
Tuition fee: CZK 120,000 per year (as of 2015/2016)**

Requirements for successful completion of the programme:
Passing of 4 exams (2 foreign languages, general basics of jurisprudence, state doctoral exam related to the subject-matter of the chosen branch of the Ph.D. programme), writing the doctoral thesis and its successful defense.

Faculty of Pharmacy

Charles University in Prague, Faculty of Pharmacy
Heyrovského 1203, 500 05 Hradec Kralove, Czech Republic
phone: + 420 495 067 429; e-mail: neznamar@faf.cuni.cz
web: http://www.faf.cuni.cz/Admission/Postgraduate/
Contact person: Renáta Neznámá

The PhD. programme is opened to graduates with a master’s degree in pharmacy, biomedical science, medicine, chemistry, biology or chemical technology. No entrance exams are required. Good command of spoken and written English is a must.

Ph.D. programmes (4 years):
• Pharmaceutical Analysis
• Pharmaceutical Chemistry
• Clinical and social pharmacy
• Bioorganic Chemistry
• Bioanalytical Chemistry

Application deadline: April 30, 2015
Annual tuition fee: CZK 100,000/academic year**

http://www.faf.cuni.cz/Admission/Postgraduate

Faculty of Arts

Charles University in Prague, Faculty of Arts
Nám. Jana Palacha 2, 116 38 Prague 1; Czech Republic
phone: +420 221 619 320; e-mail: martina.baslova@ff.cuni.cz; web: http://www.ff.cuni.cz

The Faculty of Arts of Charles University was established in 1348. For centuries, right up to the middle of the 19th century, every university trained student had to graduate from it. It can be said that its history is, in a certain sense, the history of the entire university. Since being given its
independence at the beginning of the past century, the Faculty Arts have been concentrating on its principal concerns - the humanities. Today, the Faculty is one of the largest CU faculties.

Text and Event in Early Modern Europe

An Erasmus Mundus Joint Doctorate

TEEME is an international doctoral programme in early modern studies funded by the European Union. It is structured around a unique collaboration between university-based researchers in the Humanities and the cultural and creative sector in four EU countries (United Kingdom, Germany, Portugal, Czech Republic). The partnership will foster intercultural dialogue and disseminate the best research in history, literature and culture to the wider community. On these pages you will find our research profile, a description of the programme and its objectives, details of the consortium universities and the programme’s associated partners, as well as information on the application process.

Website: www.teemeurope.eu

Application Deadline for students
applying for scholarships: 14th December 2014
Starting date: September 2015
Study Period: 3 years
Language: English
Tuition Fee for EU students: EUR 5,000/year**
Tuition Fee for 3rd country students: EUR 8,000/year**

Translation Studies
The Institute of Translation Studies offers a doctoral programme in Translation Studies. Applicants may choose one of two modes of study:

- internal (three years with a stipend)
- external (five to eight years without a stipend).

Entrance examination
Single round, oral interview consisting of:

1) discussion on the dissertation proposal (subject and proposed methods) proving the applicant’s aptitude
2) interview focused on the previous professional experience of the applicant
3) interview focused on subject-related literature (based on the applicant’s reading list)

In order to be able to read academic literature and study sources written in Czech, the students will be encouraged to improve their Czech language proficiency in the course of their studies.

Recommended Dissertation Topics:
- Contextualized study of the Czech classic, Osudy dobrého vojáka Švejka by Jaroslav Hašek (1921-1923) in English translations. The research in the contexts of translations and the study of translations will be based on the model of Gideon Toury that conceptualizes translation as a fact of the target (translating) culture.
- Structuralism and post-structuralism in the theory of translation: a comparative theoretical study researching the potential of re-conceptualized structuralist theories and methods inspired by, or even targeted at different goals.
- Czech literature in ... (English, Chinese, etc.) translation: A Research into the workings of ideology, censorship and second-hand translations that may characterize the reception of a medium-sized lingua and culture
- The reception of Czech literature in ... (Norway, Japan, etc.): impact and influence upon the target-language culture
- Functionalist theories of translation
- Translation practice: conceptualization of norms and agency
- Modes of institutionalization and conceptualization of translation practice
- Ideology in Translation Studies
- Epistemological aspects of current Translation Studies
- Theoretical vs. applied vs. critical models in Translation Studies
- Positioning axiology in Translation Studies
The Institute of Logic offers a doctoral programme in Logic. Applicants may choose one of two modes of study:

- internal (three years with a stipend)
- external (five to eight years without a stipend).

The Ph.D. Programme Board does not offer specific topics for Ph.D. candidates. Candidates can choose their topics freely. However, they should be aware of the primary fields of interests of the members of the Department of Logic, i.e. nonclassical logics, set theory, metamathematics, and interactions between these fields, including the historical aspects. Each Ph.D. student should have a qualified supervisor committed to close cooperation with the student. The supervisor—a member of the Ph.D. Programme Board or a researcher whom the Board finds eligible—must be known already at the entrance exam. Topics outside the fields of interests of the members of the department should first be discussed with the chairman of the Board.

Chair of the Programme Board (Programme Director): Doc. RNDr. Vítězslav Švejdar, CSc.

Doctoral study programmes train highly specialized staff for science and research activities.

Ph.D. Programmes

Either full-time or part-time studies:

- Animal Physiology
- Anthropology and Human Genetics
- Botany
- Developmental and Cell Biology
- Ecology
- Environmental Science
- Microbiology
- Molecular and Cellular Biology, Genetics and Virology
- Parasitology
- Philosophy and History of Science
- Plant Anatomy and Physiology
- Theoretical and Evolutional Biology
- Zoology
- Immunology
- Analytical Chemistry
- Inorganic Chemistry
- Biochemistry
- Didactics of Chemistry
- Physical Chemistry
- Macromolecular Chemistry
- Modeling of Chemical Properties of Nano- and Biostructures
- Organic Chemistry
- Geology
- Applied Geology
- General Issues in Geography
- Demography
- Physical Geography and Geocology
- Cartography, Geoinformatics and Remote Sensing of the Earth
- Regional and Political Geography
- Social Geography and Regional Development

Application deadline: April 30, 2015
Annual tuition fee: CZK 150,000**
Mathematics and physics have been taught in Prague since at least 1348, when Charles University was founded. From the outset, the university was for a long time the sole institution where natural sciences were not only a subject on the curriculum, but also an area of active research. Today, research in physics, mathematics and computer science at the Faculty of Mathematics and Physics represents a significant proportion of research at Charles University in Prague as a whole.

Ph.D. Programmes

Either full-time or part-time studies:

**Mathematics**
- Algebra, Theory of Numbers and Mathematical Logic
- General Questions of Mathematics and Information Science
- Geometry, Topology, Global Analysis and General Structures
- Mathematical Analysis
- Probability and Statistics, Econometrics and Financial Mathematics
- Scientific and Technical Calculations

**Physics**
- Biophysics, Chemical and Macromolecular Physics
- Geophysics
- Mathematical and Computer Modeling
- Meteorology and Climatology
- Nuclear Physics
- Physics Education and General Problems of Physics
- Physics of Condensed Matter and Material Research
- Physics of Nanostructures
- Physics of Surfaces and Interfaces
- Physics of Plasma and Ionized Media
- Quantum Optics and Optoelectronics
- Subnuclear Physics
- Theoretical Physics, Astronomy and Astrophysics

Please note that all prospective students have to contact the particular field of study board first in order to find his/her PhD. supervisor. List of the programmes and contact persons is available on the faculty web site.

**Application deadline:** April 30, 2015

**Annual tuition fee:** CZK 150,000**

Faculty of Education

Charles University in Prague, Faculty of Education

Application forms and further information:

Characteristics of studies:
Doctoral study is organized in 4 years. It is intended for candidates who have properly completed Master’s degree programme. The study is realized in 2 forms – full-time and combined. Full-time study assumes learner involvement of student in the activities of the department which realizes the study programme. The activity consists in research or teaching activities according to the nature of the department. The combined study assumes contact with the student’s workplace on purely educational basis. Doctoral programme envisages independent research and creative activity. The artistic-pedagogical branches are aimed at independent theoretical and creative activity.

The study is realized in English. The condition is therefore such knowledge of the English language, what enables the candidate to carry out the above mentioned activities, including taking exams and writing dissertation.

Entrance exam
The candidate demonstrates the capability of doctoral studies at the entrance examination. The exam takes the form of a debate about the project research. The candidate proves own thoughts and thorough knowledge of the research field. Any additional claims in particular branches are mentioned in information about the branches.

Research project
The expected length of text is 10 pages. The project should include in particular: motivation of the applicant to the topic processing, the state of the research in selected field, the results of candidate’s own activities in chosen field, aims, hypotheses, methods, anticipated results, bibliography, design of individual stages of dissertation with respect to the length of study.

Consultations
Due to the nature and content of study, the applicant can consult the theme, the structure of project and possibilities for its processing with chairs of doctoral boards. Contacts are listed in the information about branches of study.

Programmes offered in English and German (4 years):
• Art Education (English)
• Czech and Czechoslovak History (English)
• Didactics of Mathematics (English) • Education (English)
• Educational psychology (English)
• Musical Theory and Education (English)
• Philosophie (Deutsch)
• Philosophy (English)
• Special Education (English)

• Applicants should submit the following documents:

• Application form
• Professional curriculum vitae
• Officially verified certification of Master's degree
• List of publications of the applicant
• Proposal for a research project

Annual Tuition Fee: CZK 180,000**
Application deadline: April 30, 2015

Faculty of Social Sciences

PhD. Programme in Economics (FTS/PTS)

Charles University in Prague, Faculty of Social Sciences, Institute of Economic Studies
Opletalova 26, 110 00, Praha 1 Czech Republic
e-mail: PhD@fsv.cuni.cz; web: http://ies.fsv.cuni.cz/en/node/48
Contact person: Mr. Jan Soudek

Conditions for admission are a master's degree in economics or another field, an interest in economic research, and sufficient skills in mathematics and English. The applicant must submit a proof of English proficiency and his/her dissertation proposal before the entrance exam interview. The admission process is overseen by an examination committee and consists of two parts: Written tests in microeconomics, macroeconomics and econometrics and an interview to evaluate the applicant's research abilities, including an assessment of the project submitted by the applicant a review of the applicant's previous research. The candidate's motivation and overall maturity is also considered.

Application deadline: April 30, 2015
Annual tuition fee: EUR 500** (The school fee for the students successfully progressing towards their PhD degree may be waived from their second year of studies onwards).

PhD. Programme in Political Science

Charles University in Prague, Faculty of Social Sciences, Institute of Political Studies
U Kříže 8, 158 00, Praha 5 Czech Republic
e-mail: cds-ips@fsv.cuni.cz; web: http://ips.fsv.cuni.cz/IPSFSV-252.html
Contact: cds-ips@fsv.cuni.cz
The study programme Political Science is in general focused on the fields of the application and use of theoretical concepts of democracy and undemocratic forms of governance in the present and in historical perspective, changes in political systems with emphasis on developments related to the modernization and democratization, comparative analysis with emphasis on issues of national and regional identity, analysis of individual elements of political systems and Political Geography. Conditions for admission are a master's degree in political science or another field, sufficient skills in English and basic skills in another foreign language. The admission process is overseen by an examination committee and consists of an interview to evaluate the applicant's research abilities, including an assessment of the project submitted by the applicant and a review of the applicant's previous research. The candidate's motivation and overall maturity is also considered.

**Application deadline:** April 30, 2015  
**Annual tuition fee:** EUR 500 (The school fee for the students successfully progressing towards their PhD degree may be waived from their second year of studies onwards).

**PhD. Programme in International Relations**

*Charles University in Prague, Faculty of Social Sciences, Institute of Political Studies*

U Kříže 8, 158 00, Praha 5 Czech Republic  
e-mail: cds-ips@fsv.cuni.cz; web: [http://ips.fsv.cuni.cz/IPSVS-252.html](http://ips.fsv.cuni.cz/IPSVS-252.html)  
Contact: cds-ips@fsv.cuni.cz

Current priority research areas in the PhD programme in International Relations are International Relations theory, security and strategic studies, European studies, and history of International Relations. Conditions for admission are a master's degree, preferably in social sciences or humanities, sufficient English skills and an interest in the research of International Relations. The applicant must submit a proof of English proficiency and her/his dissertation proposal. The admission procedure runs in two rounds. In the first round the admission board evaluates the research proposal on the basis of its academic value and its compatibility with the priority topics offered by the Department of International Relations and sets the required threshold in points for the advance to the second round. Applicants who pass the threshold are invited for an interview. The examination committee evaluates the educational background of each applicant and her/his motivation for the research work, the quality of the dissertation proposal, and a general knowledge of the field.

**Application deadline:** April 30, 2015  
**Annual tuition fee:** EUR 500** (The school fee for the students successfully progressing towards their PhD degree may be waived from their second year of studies onwards).

**PhD. Programme in Sociology**

**Guarantee:** Prof. PhDr. Jiří Kabele, Ph. D.
The programme is focused on scientific inquiry, independent creative work and deepening of theoretical knowledge. The aim of the PhD. study in Sociology is to prepare the students for scientific career and teaching in the field of basic and applied research. The graduates can work at universities, scientific institutes and other areas where high level of theoretical and methodological education in sociology is needed. It is possible to apply for all of master degree graduates or equivalent. However the graduates will be admitted to the study only on the condition of passing successfully entrance exam.

Application deadline: April 30, 2015
Annual tuition fee: EUR 500**

PhD. Programme in Public and Social Policy

Guarantor: Prof. PhDr. Martin Potůček, PhD.
Charles University in Prague, Faculty of Social Sciences, Institute of Sociological Studies
U Kříže 8, 150 00 Praha 5, Czech Republic
e-mail: potucek@fsv.cuni.cz

The Public and Social Policy (PSP) doctoral study programme prepares students for basic and applied research and teaching in the academia as well as other types of activities requiring a high level of theoretical and methodological education in PSP. This programme is open to all master degree graduates or equivalent. The two-steps admission proceedings consist of 1) submission of a research proposal outlining the topic of applicant’s envisaged dissertation which will be evaluated by the examination committee and 2) oral discussion over a written research proposal and a list of literature read within the field in case of applicants, whose projects will pass the minimum requirements and will be invited for oral examination. The goal of the discussion is to verify the applicant’s ability to comply with the requirements of the PSP doctoral programme. During discussion with the admission committee, the applicant must prove the ability to defend his/her research project in critical discussion, and in particular: be able to define the cognitive problem and possible solutions precisely and convincingly and demonstrate good orientation in the field’s theoretical and methodological literature.

Application deadline: April 30, 2015
Annual tuition fee: EUR 500**
Postgraduate doctoral studies are academic / scientific in character, and can be pursued in the accredited fields of kinanthropology (the anthropology of movement) or biomechanics.

Ph.D. Programmes

Either full-time or part-time studies:
• Kinanthropology
• Biomechanics

Kinanthropology

Kinanthropology is a multidisciplinary scientific branch which deals with the complex effect of intentional and spontaneous movement activity on human personality development in biopsychosocial context and conditions in the area of physical education and sport, physiotherapy, health physical education including their effective management.

Biomechanics

Biomechanics is an interdisciplinary scientific branch which deals with the mechanical structure and behaviour of living systems and their mutual mechanical interactions based on detailed knowledge of anatomy and biochemistry. The main theoretical aims are formulations of generally valid rules both on a cellular and organic level, and on a human level. Biophysical and engineering methodological approach to task solution is supported by high-level knowledge of biological character. The research takes place at various distinctive levels, from micro-biomechanics (cellular level) to living macro systems (e.g. biomechanics of humans). It is possible to come across biomechanics applications in a wide range of sciences and professional activities. Biomechanics in this form could be used not only in the area of basic research but also in a wide range of professional activities such as rehabilitation medicine, ergonomics, forensic and biomedicine engineering, sport etc. The training department of Charles University and Academy of Sciences of the Czech Republic enable interdisciplinary education in doctoral studies in large scale and in the direction of a particular application. Students’ study programme is highly individualized according to the requirements of the topic and specialization. The main focus during studies is set on students’ individual research activity within the context of teamwork with the training department. Experimental facilities are provided by laboratories of particular training departments. Students are published in respected scientific magazines and active participation in congresses is considered a part of doctoral studies. Financial coverage of dissertation works is provided mainly by the grant policy of training departments.

Application deadline: any time
Annual tuition fee: CZK 200,000**
Originally founded as the Institute for Liberal Education of Charles University in 1994, the Faculty of Humanities Charles University gained full academic autonomy in 2000. It was established to provide study programmes at the Bachelor’s, Master’s and PhD levels previously not available at the university. Its main research and academic focus is the Humanities and Social and Cultural Anthropology.

**Postgraduate Study Programmes in English**
- Environmental Studies (3 years)
- Civil Sector Studies (3 years)
- General Anthropology (3 years)
- Historical Sociology (3 years)
- Applied Ethics (3 years)
- Contemporary European History (3 years)

**Postgraduate Study Programmes in French**
- Philosophie allemande et française (3 années)
- Sémiotique et philosophie de la communication (3 années)

**Postgraduate Study Programmes in German**
- Deutsche und französische Philosophie (3 Jahre)
- Moderne Europäische Geschichte (3 Jahre)

**Open day**: January 14, 2015  
**Application deadline**: April 30, 2015  
**Annual tuition fee**: EUR 2,000**  
**Entrance exam date**: June 1–12, 2015

**Environmental Studies**

The objective of the doctoral programme Environmental Studies is to provide the concept of sustainable development with support in the form of scientifically conducted research. An important aspect of the programme is the interdisciplinary character of the defined research domains and the synergies among them. Although it is not the main goal of the study, we assume that the research outputs could be an important source of scientifically validated information for objective, relevant and qualified decision - making on environmental aspects of the economic and social development of the Czech Republic.

Civil Sector Studies

The aim of the programme is to prepare highly qualified experts in civil society studies with knowledge of the relevant theoretical approaches, sound knowledge of research methodology and in-depth knowledge of the actual situation and practical problems in this area both in the Czech Republic and abroad. Alumni are able to take part in both basic and applied research in academic institutions and higher education institutions as well as become involved in the civil sector, public sphere (above all the state administration) and for-profit sector (corporate social responsibility, philanthropy and volunteering). The programme is focused on sociological or socio-economic analysis of the civic sector. The study plan of a PhD student includes planned publication activities, participation at conferences and exams from obligatory and obligatory-optional courses according to the accreditation documents. Upon completing the study with a doctoral exam and the defence of a PhD thesis, the student receives a Ph.D. title. The content and framework of the study is determined by the Programme Council.

Further information:  http://fhs.cuni.cz/FHSENG-442.html

General Anthropology

The postgraduate doctoral study programme at FHS CU is organised in the full-time (3 years) and correspondence form of study. The programme allows studies focused on philosophical, historical, socio-cultural and socio-linguistic anthropology and human ethology. The task of the programme in general is grasping the theoretical basics and methods of this field and mastering the methodology of academic research. The curriculum of PhD students includes: - The studies are organised in two modules, whereas the first module is compulsory for all students in the programme, the second one is selected on the basis of the consultations with the supervisor. - Ph.D. seminar - a compulsory exam in a living language - the defence of the student’s dissertation. The concept of the study programme is determined by the department council.

Further information:  http://fhs.cuni.cz/FHSENG-429.html

Historical Sociology

The main topics of Historical Sociology are the questions of social change, modernization and its processes, civilization analysis, the formation of states and nations, and the formation of global systems and globalization. These are observed by means of large scale comparative analysis, which includes both broad territorial areas and time intervals. The field comprises a number of specific research areas, including the question of collective mentalities, habits and social memory. Historical sociology is a varied and internally differentiated discipline, which feeds into a number of specialized research directions and also supports research at an empirical level.

Further information:  http://fhs.cuni.cz/FHSENG-444.html

Applied Ethics

Study of Applied Ethics is about systematic training in critical reflection on own and others attitudes, in recognition of hidden assumptions and prejudices and overlooked ethical issues.
We can say in other words that it is about deepening understanding approach – and in this case it is the area of humanities in a broad sense. The aim of these studies is therefore an effort to create a space for systematic scientific work that focuses on the ethical dimension of various disciplines or professions. During the studies the adepts have to manage also the methods of scientific work and its professional presentation. Study plan for PhD. students includes: - so called comparative examination: one-term course completed by an examination in the fields, which the candidate has not studied, but which are necessary for doctoral studies; - compulsory part: two two-term courses completed by an examination; - optional part: a choice of six one-term courses completed by an examination; - other duties: an article in peer-reviewed publications, 2 reviews, 2 lectures, seminar for students, participation in two conferences.

Further information: http://fhs.cuni.cz/FHSENG-452.html

Contemporary European History

Graduates of the Contemporary History of Europe programme are experts with a thorough, state-of-the-art theoretical and methodological knowledge of both European and Czech history, and particularly the history of the last one hundred years. Potential PhD topics, not least with regard to the Master programmes in European Cultural and Intellectual History, resp. Oral History, will deal with the Cultural, Social, Intellectual, Political, and Everyday History of Europe since the end of World War I as well as the complex history of the Czechoslovak Republic, resp. the Czech lands, in a European context. They are trained for independent scientific research in relevant fields of their specialization, and their professional competence can be applied in academic spheres both abroad and at home. Graduates are able to readily and knowledgeably grasp the workings of the academic world. They are well prepared for positions in EU political and cultural institutions, state administration and the public sector (i.e. NGO’s or governmental organizations, and the media).

Philosophie allemande et française

Ces études doctorales de troisième cycle sont ouvertes sous la forme interne et externe. La filière « philosophie allemande et française » s’oriente sur la philosophie classique allemande (à partir de Kant), la réaction à celle-ci, puis la phénoménologie (toujours particulièrement celle de Husserl) ainsi que sa réception et son développement en France, de la philosophie de la vie et de l’existence, de l’herméneutique, de l’ontologie phénoménologique, jusqu’aux modifications actuelles de la phénoménologie et aux derniers développements de la philosophie française contemporaine. Elle permet l’étude de leurs conditions historiques et de leurs influences mutuelles dans l’espace intellectuel et culturel européen. Cette filière propose ainsi une préparation exigeante et professionnelle à la recherche et au déploiement des approches philosophiques actuelles qui se sont formées en Europe centrale et en France et qui influencent fondamentalement les débats sur la scène philosophique internationale. Le programme d’études du doctorant inclut des activités de publication, la participation à des colloques et le passage des examens dans les matières obligatoires et facultatives, au choix selon le manuel d’accréditation. Les études s’achèvent par l’examen doctoral d’État et par la soutenance de la thèse de doctorat, après lesquels l’étudiant obtiendra le titre Ph.D.

Sémiotique et philosophie de la communication

Caractéristique d'école doctorale: Etant constituée de façon interdisciplinaire, l'école doctorale Sémiotique et philosophie de communication propose une préparation scientifique exigeante qui conduit à la recherche philosophique et sémiotique qualifiée de la communication, de son évolution et de ses relations avec d'autres milieux sociaux. L'enjeu principal de l'école doctorale est l'étude philosophique des stratégies, des présupposés et des effets de communication. Bien qu'elle est conçue de manière théorique, elle peut aussi bien disposer l'étudiant à pénétrer dans la pratique médiatique de masse, parce qu'elle aide à comprendre le rôle de la sémiosis dans le processus de médiation. Les étudiants sont menés à prolonger les lignes traditionnelles de recherche en sémiotique et philosophie de communication tchèque et mondiale, ainsi qu’à suivre les connaissances théoriques actuelles et à les développer de façon créative.

PhD in Economics Programme (4 years)

The Center for Economic Research and Graduate Education – Economics Institute / CERGE-EI offers PhD programme of doctoral studies in theoretical and applied economics. CERGE-EI PhD in Economics programme is designed for outstanding students who desire rigorous graduate education in economics at a modern, international institution with the goal of pursuing an academic career or entering a high-level position in an international organization, central bank, government ministry or in the private sector.

The PhD programme consists of two years of coursework followed by two years of supervised dissertation research. The working language of the institution is English. CERGE-EI encourages its students to conduct part of their dissertation research at partner institutions in Western Europe and North America, as well as to participate in collaborative research projects in other countries.

Eligibility for study
Students are expected to have good background in mathematics as well as sufficient English language skills to understand fully the study material. Undergraduate training in economics is welcomed, though not essential. Applicants are required to hold Master’s degree (or its equivalent) or expect to complete their Master’s studies by June 2015.

How to apply
Students should submit the on-line application and post in paper a CV, motivation letter, notarized copies of diplomas and transcripts, two recommendations, and other relevant documents. For complete list of application materials please visit the web-site: https://www.cerge-ei.cz/phd-admissions/how-to-apply

Documents are evaluated by the Admissions Committee of CERGE-EI. Students can be directly admitted or invited to the summer Preparatory Semester to receive intensive training in intermediate Microeconomics, Macroeconomics, and Mathematics. The programme begins in September every year. Approximately 30 students are usually offered admission to the PhD programme each year.

Application form: http://www.cerge-ei.cz/phd-online-application
Application deadline: April 30, 2015
Annual tuition fee: EUR 12,000** (Most students are granted tuition waivers and receive financial support in the form of stipends. No separate application is necessary)
