Ph.D. Programmes

Doctoral Studies are one of the priorities of CU, with the objective of training students in independent research work and providing them with the appropriate qualifications in the given academic discipline. Successful graduates of doctoral studies, which usually take three to four years and culminate in a doctoral examination and the public defence of a doctoral (dissertation) thesis, obtain the academic title of Doctor (Ph.D. or Th.D. – in case of the theological studies).

Entry into postgraduate programmes is based on the submission of a certificate of graduation from master's studies and an entrance examination. More specific entry requirements are determined in accordance with the law by the Dean of the relevant faculty.

Th.D. and Ph.D. Programmes

This programme is open to those who have graduated from a university or other institute of higher education with a master's degree in Protestant Theology (or a related discipline) and thus provided evidence of their academic abilities. Applicants must also have passed examinations in at least one of the languages important for European theology, other than their mother tongue (i.e. German, English, French, Italian, or Spanish).

Postgraduate doctoral studies consist of research activity leading towards a written dissertation, the broadening and deepening of the student's knowledge in their chosen field of study, and the mastering of the techniques of academic work. Dissertations may be written in a language other than Czech if there is an appropriate supervisor for that language. Students are also required to

attend certain lectures, seminars or convocations, pass an exam in a second language, write various papers, reviews, or literature searches, pass three exams in theological disciplines and have articles published in specialist journals. The student's individual study plan is worked out together with the student's supervisor. Students who meet these requirements and successfully submit and defend a dissertation are awarded the title of Doctor of Theology (Th.D.) or Doctor of Philosophy (Ph.D.) by Charles University in Prague.

Postgraduate doctoral studies (PDS) at the Protestant Theological Faculty are offered in the following four fields:

- Biblical Studies (comprising the Old and New Testaments); title Th.D.
- Systematic and Practical Theology (comprising dogmatics, ethics and all practical disciplines such as homiletics, catechetics, poimenics, ecumenics, etc.); title Th.D.
- Historical Theology and Theology of Religions (comprising church history, the history of dogma and the comparative study of religions); title Th.D.
- Philosophy (this programme may be offered in the 2016-2017 academic year); title Ph.D.

The normal length of postgraduate doctoral studies is four years. The maximum duration of a study course is nine years.

Application procedure

Potential applicants should first contact the appropriate Head of Department (see the web site) for the field in which they wish to write their dissertation, giving details of the topic for the dissertation and the language in which they will study. The Department will then consider if there is an appropriate person available to act as a supervisor. If so, and if possible in consultation with the prospective supervisor, the applicant should submit a written application that includes the following:

- application form
- curriculum vitae, including a detailed description of theological studies undertaken so far
- certified copy of Master's degree
- if possible, recommendation from a previous academic supervisor or teacher
- outline of the proposed dissertation project, including the topic, field, methods and aim of research (2-3 pages)

Entrance examinations then usually take place in June, consisting of an interview with members of the Faculty's Inter-Disciplinary Council for Postgraduate Studies, in which the applicant defends the outline of his or her proposed dissertation project.

Further information may be also obtained from the Vice-Dean for Research and Doctoral Studies at: prudky@etf.cuni.cz.

Application form:	see website
Application deadline:	30 April 2016
Annual tuition fee:	70,000 CZK**

Hussite Theological Faculty

Charles University in Prague, Hussite Theological Faculty

Pacovská 350/4, P.O. Box 56, 140 21 Prague 4, Czech Republic

phone: +420 222 539 210

e-mail: research@htf.cuni.cz, web: <http://www.htf.cuni.cz/doctoral>

contact person: prof.ThDr. Jan Blahoslav Lášek, Dr. h. c.

Th.D. Programmes

The Hussite Theological Faculty offers the following Ph.D.Theology studies in German:

Hussitische Theologie

- full-time or part-time studies
- 3 years, Th.D. degree

Characteristics

The aim of the study course is the scientific training of top specialists capable of independent research in the field of Hussite theology. This branch of study is intended to broaden the intellectual reach of studies of the Bohemian Reformation as applied to current theological studies. While this branch of study is not limited by nationality or confession, it does interpret current theological thinking from the perspective of the Bohemian Reformation, all of which is placed in complementary context in relation to Catholic and Evangelical theology.

Alumni profile

Graduates in the aforementioned branch of study are ready to perform independent scientific and research work. Some of these will progress to further work leading to habilitation in all departments of the theological compendium. Graduates will have received methodological and linguistic training. Above all, the course serves to prepare future associate professors of theological or other faculties, with similar branches of study being fostered. Demand for such specialists is enormous due to the coming changing of the generations.

For more information about applications and fees, see our website www.htf.cuni.cz/doctoral. Should you have any further queries, please contact us at research@htf.cuni.cz.

e-mail: phd@lfl.cuni.cz; web: <http://www.lfl.cuni.cz/en>

contact person: Bohdana Frantíková

The First Faculty of Medicine in Prague implements postgraduate scientific education in cooperation with the 2nd Faculty of Medicine, 3rd Faculty of Medicine, Faculty of Medicine in Pilsen and Faculty of Science, as well as with biomedically oriented institutes of the Czech Academy of Sciences and Research Institutes of the Ministry of Health.

Ph.D. Programmes are available as either full-time or part-time studies in:

- Biochemistry and Pathobiochemistry
- Biomechanics
- Biomedical Informatics
- Cell Biology and Pathology
- Developmental and Cell Biology
- Experimental Surgery
- Gerontology
- Human Physiology and Pathophysiology
- Immunology
- Medical Biophysics
- Molecular and Cell Biology,

Genetics and Virology

- Neurosciences
- Parasitology
- Pharmacology and Toxicology
- Preventive Medicine
- Bioethics
- Microbiology
- History of Medicine
- Imaging Methods in Medicine
- Specialization in Health Service - Addictology
- Psychology – Medical Psychology and Psychopathology

All information on the admission procedure for Doctor (PhD) **degree study programmes, forms, required documents (enclosures to the application)** etc., is available from the faculty website at: <http://www.lfl.cuni.cz/> - section Doctoral Studies – Current information.

How to apply:

- First, select the appropriate field from the courses offered and select and contact a supervisor.
- Please note that the application form must be accompanied by a recommendation letter from the supervisor when applying for studies
- Applications must be submitted to the contact person before 30 April of the appropriate year.
- The interview shall take place during June of the same year.

Application deadline: 30 April 2016

Annual tuition fee: 50,000 CZK**

Second Faculty of Medicine in Prague

Charles University in Prague, 2nd Faculty of Medicine

V Úvalu 84, 150 06 Prague 5, Czech Republic

phone: +420 224 435 836; fax: +420 224 435 820

e-mail: ivana.tinkova@lfmotol.cuni.cz; web: <http://www.lf2.cuni.cz>

contact person: Mrs. Ivana Tinková

The Second Faculty of Medicine provides postgraduate doctoral studies in biomedicine together with the First Faculty of Medicine, the Third Faculty of Medicine, the Faculty of Science, the Faculty of Physical Education and Sports and Institutes of the Academy of Sciences of the Czech Republic oriented to biomedicine and departmental research institutes of the Ministry of Health of the Czech Republic. The aim of the postgraduate course is the preparation of graduates of the Faculty for individual work in basic and specialised research work in medicine. The concept for study courses and the requirements in each field are set by the Specialty Council, which is composed of specialists from all participating institutions. The programme is open to university graduates from the Czech Republic and abroad. Courses can be either full-time or part-time. Full-time courses take at least four years; part-time courses take at least four years.

Please note that all prospective doctoral students must first contact the relevant department in order to locate his/her supervisor. When applying for studies, application forms must be accompanied by a recommendation letter from the supervisor or the application cannot be processed.

Ph.D. Programmes in Biomedicine – study fields:

Either full-time or part-time studies in:

- Biochemistry and Pathobiochemistry
- Biomechanics
- Biomedical Informatics
- Cell Biology and Pathology
- Experimental Surgery
- Gerontology
- Human Physiology and Pathophysiology
- Immunology
- Medical Biophysics
- Microbiology
- Molecular and Cell Biology, Genetics and Virology
- Neurosciences
- Pharmacology and Toxicology
- Preventive Medicine
- Imaging Methods in Medicine

Application deadline: 30 April 2016

Annual tuition fee: 50,000 CZK**

Postgraduate doctoral studies in medicine are split between the Faculty and the faculty hospital. The Faculty offers accredited doctoral courses in a number of medical disciplines.

Programmes offered in English:

- Anatomy, Histology and Embryology
- Hygiene, Preventive Medicine and Epidemiology
- Medical Pharmacology
- Physiology and Pathophysiology
- Stomatology
- Internal Medicine

All study programmes are of four years' duration.

Entrance examination

The entrance examination takes the form of an interview focusing primarily on technical and language skills, as well as the readiness of candidates for independent scientific work in their chosen area of research interest.

Interviews comprise:

1. English language (0-20 points)
2. Specialised topic (0 -40 points)
3. Examination in the area of interest (0-30)
4. Publications, lectures (0-10 points)

Conditions of admission to study:

1. Completed university master's degree programme, not later than the date of the beginning of the academic year 1 October 2016.
2. Submitting an application according to the requirements of the Charles University Faculty of Medicine in Pilsen by 30 April 2016.
3. Interest in work in selected subject of research and ability to perform scientific work.
4. Passing of entrance interview with at least 70 points.

Application deadline: 30 April 2016

Annual tuition fee: 50,000 CZK**

Faculty of Medicine in Hradec Kralove

Charles University, Faculty of Medicine in Hradec Kralove

Šimkova 870, 500 38 Hradec Kralove, Czech Republic

Theoretical Legal Science

Three branches of doctoral study in English will be opened in the 2016/2017 academic year.

International Law

Guarantor: prof. JUDr. Pavel Šturma, DrSc., Head of the Department of International Law

Contact person: JUDr. Věra Honusková, Ph.D., Honuskov@prf.cuni.cz

The Department of International Law of the Faculty of Law of Charles University in Prague offers a Ph.D. programme in Public International Law. The programme is oriented towards theoretical questions of international legal doctrine, as well as selected topical issues in contemporary International Law, incl. human rights, international criminal law and the protection of international investments.

General course – lectures:

- History of the Czechoslovak and Czech International Legal Doctrine
- International Judicial Bodies, Concurrent Jurisdiction
- International Criminal Law and Justice
- International Protection of Children in Armed Conflicts
- International Protection of Linguistic Minorities
- Settlement of International Investment Disputes

Possible topics for doctoral theses

- Fragmentation of International Law
- Interpretation and Application of International Treaties in the Czech Republic
- International Security and International Law
- International Criminal Court and the Crime of Aggression
- International Protection of Linguistic Minorities
- International Investment Arbitration and EU Law

European Law

Guarantor: Prof. JUDr. PhDr. Michal Tomášek, DrSc., Head of the Department of European Law

Contact person: Doc. JUDr. Richard Král, Ph.D. LL.M., Kral@prf.cuni.cz

The Department of European Law of the Faculty of Law of Charles University in Prague offers a Ph.D. programme in European Law. The programme is oriented towards theoretical questions of

European Union and European Union Law, including impacts on international trade and economic, monetary and financial issues. The programme also offers a focus on human rights issues in a European context, including the position of individuals in EU Law.

Possible topics for doctoral theses

- Application of EU Law in the Czech Republic
- The Principle of Subsidiarity and the Role of National Parliaments in EU Law
- Minority Rights in the European Union
- The Concept of EU Citizenship
- Exhaustion of Intellectual Property Rights
- EU Competition and Intellectual Property Law
- European Monetary Law
- Europeanization of Criminal Law

Environmental Law

Guarantor: prof. JUDr. Milan Damohorský, DrSc., Head of the Department of Environmental Law
Contact Person: JUDr. Michal Sobotka, Ph.D., Sobotka@prf.cuni.cz

The Department of Environmental Law of the Faculty of Law of Charles University in Prague offers a new Ph.D. programme in Environmental Law. The programme is oriented towards theoretical and practical questions of international, European Union and Czech environmental law and policy, including overlaps with land law, agricultural law, natural resources law, energy law and territorial planning law. The programme also offers a focus on constitutional, criminal, administrative, civil and financial law relations and the consequences of environmental issues.

General course – lectures:

- Principles of Environmental Law
- Ownership and Environment.
- System and Sources of Environmental Law
- Right to Favourable Environment.
- Environmental Liability
- Legal Protection of Air, Water and Land.

Possible topics for doctoral theses

- Liability for Environmental Damage
- The Right of Information and Public Participation in Environmental Decision Making
- Legal Instruments for the Protection of Biodiversity
- Role of Courts in Environmental Protection
- Economic Instruments of the Protection of the Environment
- Fresh Waters Legal Protection
- Environmental Criminal Law
- Climate Change from the Legal Perspective

Requirements for admission to the doctoral programme of study:

- Applicants will be admitted solely on the basis of individual assessment during the admission procedure. The doctoral programme of study is oriented towards theoretical research and autonomous creative work in the respective branch of expertise.
- Applications are accepted until 30 April 2016 at the latest.

- Electronic application forms should be submitted through the Charles University Information system at <https://is.cuni.cz/studium/>
- Applications must be sent by mail to the following address following submission through the electronic application form in the Information System of Charles University:
*Univerzita Karlova v Praze, Právnická fakulta, Referát doktorského studia
Nám. Curieových 7, I 16 40 Prague I*

or submitted in person at the Filing Office of the Faculty of Law, the following enclosures:

- a) notarised copy of university diploma along with diploma supplement (in the case of earlier graduates, state exam certificate) verifying graduation from a Master's or equivalent programme of study; this requirement does not apply to graduates of Master's study programmes at the Charles University Faculty of Law who graduated after 1 January 2008;
 - b) detailed (professional) curriculum vitae containing information on the applicant's professional activities (experience in legal practice), along with a list of publications (if applicable)
 - c) outline of the applicant's dissertation, length approx. 7 - 8 pages, signed by the anticipated advisor; the outline of the dissertation must be also sent by e-mail to the guarantor of the relevant branch of study
 - d) if applying for a full-time study course, applicants also submit the written approval of the Head of Department.
- Applications should include a notarised copy of a university diploma along with the diploma supplement verifying graduation from a Master's or equivalent programme of study. If the applicant has not yet completed a Master's programme at the time of filing the application, s/he must submit the required documents not later than on 30 September 2016.
 - For applicants whose submitted applications for recognition of higher education in a foreign country were not decided by 30 September 2016, the period for verification of compliance with the admission requirements ends on 21 October 2016. If a certificate of regular completion of higher education is not submitted to the doctoral study office before or on this date, it will not be possible to issue the applicant the decision of the dean on admission.
 - In cases where documents proving the completion of higher education have been issued by a higher education institution based in the Czech Republic, Slovakia, Poland, Hungary or Slovenia, the application should include a notarised copy of the university diploma.
 - In cases where documents proving the completion of higher education have been issued by a higher education institution based in a country other than the Czech Republic, Slovakia, Poland, Hungary or Slovenia, a certificate of recognition of higher education, or part thereof, by the Czech Republic must be submitted. Information on the procedure for obtaining recognition of higher education can be retrieved from <http://www.cuni.cz/UKEN-I6.html>
 - Documents must be submitted along with a certified translation into Czech.
 - The applicant must submit an outline of his/her dissertation in English (approx. 7 - 8 pages) and attach his/her signature and signature of the anticipated advisor.

Entrance examination:

Regular date: 9 June 2016

Substitute date: 21 June 2016

Form of exam: oral
Form of study: full-time or combined
(in the former case, conditional consent of the department head will be submitted with the application)

In the oral entrance examination the applicant shall adequately demonstrate his/her professional and academic capacity to participate in the chosen programme and to autonomously conduct scientific research.

Admission of a particular applicant will be decided by the Dean.

Duration of study: generally 3 years
Tuition fee: CZK 130,000 per year (as of 2015/2016)**

Requirements for successful completion of the programme:

Passing of 4 exams (2 foreign languages, general basics of jurisprudence, state doctoral exam related to the subject-matter of the chosen branch of the Ph.D. programme), writing of the doctoral thesis and its successful defence.

Faculty of Pharmacy

Charles University in Prague, Faculty of Pharmacy
Heyrovského 1203, 500 05 Hradec Kralove, Czech Republic
phone: + 420 495 067 419; e-mail: neznamar@faf.cuni.cz
web: <http://www.faf.cuni.cz/Admission/Postgraduate/>
Contact person: Renáta Neznámá

This Ph.D. programme is open to graduates holding a Master's degree in pharmacy, biomedical science, medicine, chemistry, biology or chemical technology. No entrance exams are required. A good command of spoken and written English is a requirement.

Ph.D. programmes (4 years):

- Pharmaceutical Analysis
- Pharmaceutical Chemistry
- Clinical and Social Pharmacy
- Bioorganic Chemistry
- Pathobiochemistry and Xenobiochemistry
- Bioanalytical Chemistry
- Pharmacology and Toxicology
- Pharmacognosy and Toxicology of Natural Compounds

Application deadline: 30 April 2016
Annual tuition fee: 100,000 CZK/academic year**

<http://www.faf.cuni.cz/Admission/Postgraduate>

Faculty of Arts

Charles University in Prague, Faculty of Arts

Nám. Jana Palacha 2, 116 38 Prague 1; Czech Republic
phone: +420 221 619 320; e-mail: martina.baslova@ff.cuni.cz
web: <http://www.ff.cuni.cz>

The Faculty of Arts of Charles University was established in 1348. For centuries, right up to the middle of the 19th century, every student at the university had to graduate from it. It can be said that its history is, in a sense, the history of the university as a whole. Since being given its independence at the beginning of the last century, the Faculty of Arts has focused on its principal concerns – the humanities. Today the Faculty is one of the largest faculties at Charles University.

Text and Event in Early Modern Europe

An Erasmus Mundus Joint Doctorate

TEEME is an international doctoral programme in early modern studies, funded by the European Union. It is structured around a unique collaboration between university-based researchers in the Humanities and the cultural and creative sector in four EU countries (United Kingdom, Germany, Portugal and the Czech Republic). The partnership will foster intercultural dialogue and disseminate the best research in history, literature and culture to the wider community. On these pages you will find our research profile, a description of the programme and its objectives, details of the universities in the consortium and the programme's associated partners, as well as information on the application process.

Translation Studies/ Traductologie

The Institute of Translation Studies offers a doctoral programme in Translation Studies (in English)/ Traductologie (in French). Applicants may choose one of two modes of study:

- internal (three years with a stipend)
- external (five to eight years without a stipend).

Entrance examination

Single-round oral interview consisting of:

- 1) discussion of the dissertation proposal (subject and proposed methods), proving the applicant's aptitude
- 2) interview focusing on the applicant's previous professional experience
- 3) interview focusing on subject-related literature (based on the applicant's reading list)

In order to be able to read academic literature and study sources written in Czech, students are encouraged to improve their Czech language proficiency in the course of their studies.

Recommended dissertation topics (programme in English):

- Contextualised study of the Czech classic *Osudy dobrého vojáka Švejka* by Jaroslav Hašek (1921-1923) in English translation. Research into the contexts of translations and the study of translations will be based on Gideon Toury's model, which conceptualizes translation as a fact of the target (translating) culture.
- Structuralism and post-structuralism in the theory of translation: a comparative theoretical study researching the potential of re-conceptualised structuralist theories and methods inspired by, or even targeted at, different goals.
- Czech literature in ... (English, Chinese, etc.) translation: research into the workings of ideology, censorship and second-hand translations that may characterise the reception of a medium-sized lingua and culture
- The reception of Czech literature in ... (Norway, Japan, etc.): impact and influence upon the target-language culture
- Functionalist theories of translation
- Translation practice: conceptualisation of norms and agency
- Modes of institutionalisation and conceptualisation of translation practice
- Ideology in translation studies
- Epistemological aspects of current translation studies
- Theoretical vs. applied vs. critical models in translation studies
- Positioning axiology in translation studies

Recommended dissertation topics (programme in French):

- Traduction et réception de la littérature tchèque dans le monde francophone: analyse des œuvres d'un auteur choisi
- Les éléments de la culture tchèque et leur traduction en français (à travers des textes littéraires/ non littéraires)
- Qui détermine la qualité de l'interprétation ?
- Interprétation de conférence : l'importance du « retour » dans les enceintes internationales
- Les défis de l'interprétation en milieu social
- Quoi de neuf dans la recherche sur le processus de l'interprétation ?

Logic

The Institute of Logic offers a doctoral programme in Logic. Applicants may choose one of two modes of study:

- internal (three years with a stipend)
- external (five to eight years without a stipend).

The Ph.D. Programme Board does not offer specific topics for Ph.D. candidates. Candidates can choose their topics freely. However, they should be aware of the primary fields of interests of the members of the Department of Logic, i.e. nonclassical logics, set theory, metamathematics, and interactions between these fields, including the historical aspects. Each Ph.D. student should have a qualified supervisor committed to close cooperation with the student. The supervisor - a member of the Ph.D. Programme Board or a researcher deemed eligible by the Board - must be already known prior to the entrance exam. Topics outside the fields of interests of the members of the department should first be discussed with the chairman of the Board.

Doctoral study programmes train highly specialised staff for science and research activities.
Ph.D. Programmes

Either full-time or part-time studies:

- Animal Physiology
- Anthropology and Human Genetics
- Botany
- Developmental and Cell Biology
- Ecology
- Environmental Science
- Microbiology
- Molecular and Cellular Biology, Genetics and Virology
- Parasitology
- Philosophy and History of Science
- Plant Anatomy and Physiology
- Theoretical and Evolutional Biology
- Zoology
- Immunology
- Analytical Chemistry
- Inorganic Chemistry
- Biochemistry
- Didactics of Chemistry
- Physical Chemistry
- Macromolecular Chemistry
- Modelling of Chemical Properties of Nano- and Biostructures
- Organic Chemistry
- Geology
- Applied Geology
- General Issues in Geography
- Demography
- Physical Geography and Geoecology
- Cartography, Geoinformatics and Remote Sensing of the Earth
- Regional and Political Geography
- Social Geography and Regional Development

Application deadline:

April 30, 2016

Mathematics and physics have been taught in Prague since at least 1348, when Charles University was founded. From the outset, the university was for a long time the only institution where the natural sciences were not only a subject on the curriculum, but also an area of active research. Today, research in physics, mathematics and computer science at the Faculty of Mathematics and Physics represents a significant proportion of research at Charles University in Prague as a whole. Ph.D. Programmes

Either full-time or part-time studies:

Mathematics

- Algebra, Theory of Numbers and Mathematical Logic
- General Questions of Mathematics and Information Science
- Geometry, Topology, Global Analysis and General Structures
- Mathematical Analysis
- Probability and Statistics, Econometrics and Financial Mathematics
- Scientific and Technical Calculations

Computer Science

- Computer Graphics and Image Analysis
- Discrete Models and Algorithms
- Mathematical Linguistics
- Software Systems
- Theoretical Computer Science

Physics

- Biophysics, Chemical and Macromolecular Physics
- Geophysics
- Mathematical and Computer Modelling
- Meteorology and Climatology
- Nuclear Physics
- Physics Education and General Problems of Physics
- Physics of Condensed Matter and Material Research
- Physics of Nanostructures
- Physics of Surfaces and Interfaces
- Physics of Plasma and Ionized Media
- Quantum Optics and Optoelectronics
- Subnuclear Physics
- Theoretical Physics, Astronomy and Astrophysics

Please note that all prospective students must contact the board for their particular field of study first in order to find their PhD. supervisor. A list of programmes and contact persons is available on the faculty website.

Application deadline: 30 April 2016
Annual tuition fee: 150,000 CZK**

Application forms and further information: <http://tarantula.ruk.cuni.cz/PEDFEN-6.html>

Characteristics of studies:

Doctoral studies are organised over 4 years and are intended for candidates who have properly completed their Master's degree programme. Studies are realised in 2 forms – full-time and combined. Full-time study assumes the learner involvement of student in the activities of the department realising the study programme. Activities consist of research or teaching activities according to the nature of the department. Combined study assumes contact with the student's workplace on a purely educational basis. The doctoral programme envisages independent research and creative activity. The artistic-pedagogical branches are aimed at independent theoretical and creative activity.

Studies are realised in English and are therefore conditional on sufficient knowledge of the English language to enable the candidate to perform the aforementioned activities, including the taking of exams and writing of a dissertation.

Entrance exam

Candidates demonstrate their suitability for doctoral studies at the entrance examination. The exam takes the form of a debate about the project research. Candidates present their own ideas and thorough knowledge of the research field. Any additional requirements in particular branches are mentioned in information about those branches.

Research project

The expected length of text is 10 pages. Projects should include in particular: motivation of the applicant to research the topic in question, the state of the research in their chosen field, the results of candidate's own activities in their chosen field, aims, hypotheses, methods, anticipated results, bibliography, design of individual stages of dissertation with respect to the length of study.

Consultations

Due to the nature and content of study, the applicant can consult the theme, the structure of project and possibilities for its processing with chairs of doctoral boards. Contacts are listed in information about the individual branches of study.

Programmes offered in English and German (4 years):

- Art Education (English)
- Didactics of Mathematics (English)
- Czech and Czechoslovak History (English)
- Education (English)
- Educational psychology (English)
- Musical Theory and Education (English)
- Philosophie (Deutsch)
- Philosophy (English)
- Special Education (English)
- Applicants should submit the following documents:
- Application form
- Professional curriculum vitae
- Officially verified certification of Master's degree
- List of publications by the applicant
- Proposal for a research project

Annual Tuition Fee: 180,000 CZK**

Application deadline: 30 April 2016

Faculty of Social Sciences

PhD. Programme in Economics (FTS/PTS)

**Charles University in Prague, Faculty of Social Sciences,
Institute of Economic Studies**

Opletalova 26, 110 00, Prague 1 Czech Republic

e-mail: PhD@fsv.cuni.cz; web: <http://ies.fsv.cuni.cz/en/node/186>

Contact person: Mr. Jan Soudek

Admission is conditional on possession of a master's degree in economics or another field, an interest in economic research, and adequate skills in mathematics and English. Applicants must submit proof of proficiency in English and his/her dissertation proposal. There is no entrance exam as a part of the admission process. The admission committee evaluates the applicant's research abilities, including an assessment of the project submitted by the applicant and a review of the applicant's previous research. The candidate's motivation and overall maturity is also considered.

Application deadline: 30 April 2016

Annual tuition fee: 500 CZK** (The tuition fee for students who successfully progress towards their PhD degree may be waived from their second year of studies onwards).

PhD. Programme in Political Science

Charles University in Prague, Faculty of Social Sciences, Institute of Political Studies

U Kříže 8, 158 00, Prague 5 Czech Republic

e-mail: cds-ips@fsv.cuni.cz; web: <http://ips.fsv.cuni.cz/IPSFVS-252.html>

contact: cds-ips@fsv.cuni.cz

The Political Science study programme generally focuses on the application and use of theoretical concepts of democracy and undemocratic forms of governance in the present and in from a historical perspective, changes in political systems with an emphasis on developments related to modernisation and democratisation, comparative analysis with an emphasis on issues of national and regional identity, analysis of individual elements of political systems and political geography. Admission is conditional on possession of a Master's degree in political science or other field, adequate skills in English and basic skills in another foreign language. The admission process is overseen by an examination committee and consists of an interview to evaluate the applicant's research abilities, including an assessment of the project submitted by the applicant and a review of the applicant's previous research. The candidate's motivation and overall maturity is also considered.

Application deadline: 30 April 2016

Annual tuition fee: 500 EUR (The tuition fee for students who successfully progress towards their PhD degree may be waived from their second year of studies onwards).

PhD. Programme in International Relations

Charles University in Prague, Faculty of Social Sciences, Institute of Political Studies

U Kříže 8, 158 00, Prague 5 Czech Republic

e-mail: cds-ips@fsv.cuni.cz; web: <http://ips.fsv.cuni.cz/IPSFVS-252.html>

Contact: cds-ips@fsv.cuni.cz

Current priority research areas in the PhD programme in international relations are international relations theory, security and strategic studies, European studies, and history of international relations. Admission is conditional on possession of a Master's degree, preferably in the social sciences or humanities, adequate English skills and an interest in research into international relations. The applicant must submit proof of proficiency in English and his/her dissertation proposal. The admission procedure consists of two rounds. In the first round the admission board evaluates the applicant's research proposal based on its academic value and compatibility with the priority topics offered by the Department of International Relations and sets the required points threshold for advancement to the second round. Applicants who pass this threshold are invited for an interview. The examination committee evaluates the educational background of each applicant and his/her motivation for the research work, the quality of the dissertation proposal, and general knowledge of the field.

Application deadline: 30 April 2016

Annual tuition fee: 500 EUR** (The tuition fee for the students who successfully progress towards their PhD degree may be waived from their second year of studies onwards).

PhD. Programme in Sociology

Guarantor: Prof. PhDr. Jiří Kabele, Ph. D.

Charles University in Prague, Faculty of Social Sciences, Institute of Sociological Studies

U Kříže 8, 150 00 Prague 5, Czech Republic

e-mail: jana.vojanova@fsv.cuni.cz

Further information: <http://iss.fsv.cuni.cz/ISSENG-15.html>

This programme focuses on scientific inquiry, independent creative work and the deepening of theoretical knowledge. The aim of the PhD. study course in sociology is to prepare students for a career in science and teaching in the fields of basic and applied research. Graduates can work at universities, scientific institutions and other areas in which a high level of theoretical and methodological education in sociology is required. The course is open to all holders of a Master's degree or equivalent. However, graduates are admitted to the study on condition of the successful passing of an entrance exam.

Application deadline: 30 April 2016

Annual tuition fee: 500 EUR**

PhD. Programme in Public and Social Policy

Guarantor: Prof. PhDr. Martin Potůček, PhD.

Charles University in Prague, Faculty of Social Sciences, Institute of Sociological Studies

U Kříže 8, 150 00 Prague 5, Czech Republic

e-mail: potucek@fsv.cuni.cz

Further information: <http://iss.fsv.cuni.cz/ISSENG-24.html>

The **Public and Social Policy** (PSP) doctoral study programme prepares students for basic and applied research and teaching in academia, as well as other types of activities that require a high level of theoretical and methodological training in PSP. This programme is open to all holders of a Master's degree or equivalent. The two-step admission process consists of 1) submission of a research proposal outlining the topic of applicant's envisaged dissertation, which is evaluated by the examination committee and 2) oral discussion of a written research proposal and a list of literature read within the field in the case of applicants whose projects meet the minimum requirements and are invited for an oral examination. During the Ph.D. program, students are evaluated based on their participation in research, publication activities, passing of mandatory or advisor-recommended courses (primarily the Doctoral Seminar, Introduction into Philosophy, and Methodology of Science), teaching activities, and other work for the field and the Department of Public and Social Policy, ISS.

Alumni of the Ph.D. Program are qualified to teach public and social policy at all levels, as well as pursue qualified research work. Relevant jobs are available primarily at universities in the Czech Republic and abroad (some Ph.D. Program alumni already work at universities outside the Czech Republic). Further options include qualified policy analysis and policy design in diverse fields (family, education, etc.) as analysts or advisors and work in politics, public administration, or the civic sector.

Application deadline: 30 April 2016

Annual tuition fee: 500 EUR**

Faculty of Physical Education and Sport

Charles University in Prague, Faculty of Physical Education and Sport

José Martího 31, 162 52 Prague 6 –Veleslavin, Czech Republic

Contact person: PhDr. Marta Hrušková

Postgraduate doctoral studies are academic/scientific in character and can be pursued in the accredited fields of kinanthropology (the anthropology of movement) or biomechanics.

Ph.D. Programmes

Either full-time or part-time studies:

- Kinanthropology
- Biomechanics

Kinanthropology

Kinanthropology is a multidisciplinary branch of science that deals with the complex effect of intentional and spontaneous movement on human personality development in a bio-psychosocial context and conditions in the fields of physical education and sport, physiotherapy, health and physical education, including their effective management.

Biomechanics

Biomechanics is an interdisciplinary branch of science that deals with the mechanical structure and behaviour of living systems and their mutual mechanical interactions, based on a detailed knowledge of anatomy and biochemistry. The main theoretical aims are the formulation of generally valid rules both on a cellular and organic, as well as a human, level. Biophysical and engineering methodological approach to task solution is supported by a high-level knowledge of biology. The research takes place at various, distinct levels, from micro-biomechanics (cellular level) to living macro systems (e.g. human biomechanics). Biomechanics applications are encountered in a wide range of sciences and professional activities. Biomechanics in this form can be applied in not only basic research, but also in a wide range of professional activities such as physiotherapy, ergonomics, forensic and biomedical engineering, sport etc. The training department of Charles University and the Academy of Sciences of the Czech Republic facilitate large-scale, interdisciplinary education in doctoral studies and towards a particular application. Student study programmes are highly customised to the requirements of the field and specialisation. The main focus during studies is placed on the student's individual research activity in the context of teamwork with the training department. Test facilities are provided in the laboratories of the relevant training departments. Students are published in respected scientific magazines and active participation in congresses counts towards doctoral studies. Financing for dissertation works is provided mainly by means of the grant policy of the training departments.

Application deadline: any time
Annual tuition fee: 200,000 CZK**

Faculty of Humanities

Charles University in Prague, Faculty of Humanities

U Kříže 8, 158 00, Jinonice, Prague 5; Czech Republic

phone: +420 251 080 351; e-mail: Jana.Jenickova@fhs.cuni.cz

web: <http://fhs.cuni.cz/FHSENG-1.html>

Originally founded as the Institute for Liberal Education of Charles University in 1994, the Charles University Faculty of Humanities gained full academic autonomy in 2000. It was established to provide study programmes at Bachelor's, Master's and PhD levels previously not available at the university. Its main research and academic focus are the humanities and social and cultural anthropology.

Postgraduate study programmes in English

- Environmental Studies (3 years)
- Civil Sector Studies (3 years)
- General Anthropology (3 years)
- Historical Sociology (3 years)
- Applied Ethics (3 years)
- Contemporary European History (3 years)

Postgraduate study programmes in French

- Philosophie allemande et française (3 années)
- Sémiotique et philosophie de la communication (3 années)

Postgraduate study programmes in German

- Deutsche und französische Philosophie (3 Jahre)
- Moderne Europäische Geschichte (3 Jahre)

Open day:	13 January 2016
Application deadline:	30 April 2016
Application form:	https://is.cuni.cz/eng/studium/login.php?do=prihlaska
Annual tuition fee:	55,000 CZK (2,000 EUR)/year**
Entrance exam date:	30 May – 10 June 2016

Environmental Studies

The objective of the Environmental Studies doctoral programme is to support the concept of sustainable development with scientifically conducted research. An important aspect of the programme is the interdisciplinary nature of the defined research domains and the synergies among them. While not the main goal of the study, we anticipate that research outputs could be an important source of scientifically validated information for objective, relevant and qualified decision-making on environmental aspects of the economic and social development of the Czech Republic.

Further information: <http://fhs.cuni.cz/FHSENG-428.html>

Civil Sector Studies

The aim of this programme is to prepare highly qualified experts in civil society studies with knowledge of the relevant theoretical approaches, sound knowledge of research methodology and in-depth knowledge of the current situation and practical problems in this field, both in the Czech Republic and abroad. Alumni are able to participate in both basic and applied research at academic institutions and higher education institutions, as well as become involved in the civil sector; public sphere (primarily state administration) and the for-profit sector (corporate social responsibility, philanthropy and volunteering). The programme focuses on the sociological and socio-economic analysis of the civic sector. The study plan of a PhD student includes planned publication activities, participation in conferences and exams from obligatory and obligatory/optional courses according to the accreditation documents. On completion of studies with a doctoral exam and the defence of a PhD thesis, the student receives a Ph.D. title. The content and framework of the study is determined by the Programme Council.

Further information: <http://fhs.cuni.cz/FHSENG-442.html>

General Anthropology

This postgraduate doctoral study programme at FHS CU is organised as a full-time (3 years) and correspondence course. The programme allows studies to focus on philosophical, historical, socio-cultural and socio-linguistic anthropology and human ethology. The goal of the programme in general is to grasp the theoretical basics and methods of this field and master the methodology of academic research. The curriculum of PhD students includes: - Studies are organised in two modules. The first module is mandatory for all students in the programme, and the second is selected on the basis of consultations with the supervisor. - Ph.D. seminar - mandatory exam in a living language - the defence of the student's dissertation. The concept of the study programme is determined by the department council.

Further information: <http://fhs.cuni.cz/FHSENG-429.html>

Historical Sociology

The main topics of Historical Sociology are questions of social change, modernisation and its processes, civilisation analysis, the formation of states and nations, and the formation of global systems and globalisation. These are observed by means of a large-scale comparative analysis, which includes both broad territorial areas and time intervals. The field comprises a number of specific research areas, including the question of collective mentalities, habits and social memory. Historical sociology is a varied and internally differentiated discipline that feeds into a number of specialised research directions and also supports research at an empirical level.

Further information: <http://fhs.cuni.cz/FHSENG-444.html>

Applied Ethics

The study of Applied Ethics is concerned with systematic training in critical reflection on one's attitudes and those of other; in recognition of hidden assumptions and prejudices and overlooked ethical issues. We can say in other words that it is about deepening understanding approach – and

in this case it is the area of humanities in a broad sense. The aim of these studies is therefore an effort to create a space for systematic scientific work that focuses on the ethical dimension of various disciplines or professions. During their studies, candidates must also manage methods of scientific work and its professional presentation. The study plan for PhD students includes: - so-called comparative examination: single-semester course culminating in an examination in fields that the candidate has not studied, but which are necessary for doctoral studies; - compulsory part: two two-semester courses culminating in an examination; - optional part: a choice of six one-semester courses culminating in an examination; - other duties: one article in peer-reviewed publications, 2 reviews, 2 lectures, seminar for students, participation in two conferences.

Further information: <http://fhs.cuni.cz/FHSENG-452.html>

Contemporary European History

Graduates of the Contemporary History of Europe programme have thorough, state-of-the-art theoretical and methodological knowledge of both European and Czech history, and particularly the history of the last hundred years. Potential PhD topics, not least with regard to the Master programmes in European Cultural and Intellectual History, resp. Oral History, will deal with the Cultural, Social, Intellectual, Political, and Everyday History of Europe since the end of World War I, as well as the complex history of the Czechoslovak Republic, resp. the Czech Lands, in a European context. They are trained in independent scientific research in fields relevant to their specialisation, and their professional competence can be applied in academic spheres both at home and abroad. Graduates are able to readily and knowledgeably grasp the workings of the academic world. They are well prepared for positions in political and cultural institutions of the EU, state administration and the public sector (i.e. NGO's or governmental organizations and the media).

Further information: <http://fhs.cuni.cz/FHSENG-581.html>

Philosophie allemande et française

Ces études doctorales de troisième cycle sont ouvertes sous la forme interne et externe. La filière « philosophie allemande et française » s'oriente sur la philosophie classique allemande (à partir de Kant), la réaction à celle-ci, puis la phénoménologie (tout particulièrement celle de Husserl) ainsi que sa réception et son développement en France, de la philosophie de la vie et de l'existence, de l'herméneutique, de l'ontologie phénoménologique, jusqu'aux modifications actuelles de la phénoménologie et aux derniers développements de la philosophie française contemporaine. Elle permet l'étude de leurs conditions historiques et de leurs influences mutuelles dans l'espace intellectuel et culturel européen. Cette filière propose ainsi une préparation exigeante et professionnelle à la recherche et au déploiement des approches philosophiques actuelles qui se sont formées en Europe centrale et en France et qui influencent fondamentalement les débats sur la scène philosophique internationale. Le programme d'études du doctorant inclut des activités de publication, la participation à des colloques et le passage des examens dans les matières obligatoires et facultatives, au choix selon le manuel d'accréditation. Les études s'achèvent par l'examen doctoral d'État et par la soutenance de la thèse de doctorat, après lesquels l'étudiant obtiendra le titre Ph.D.

Further information: <http://fhs.cuni.cz/FHSENG-445.html>

Sémiotique et philosophie de la communication

Caractéristique d'école doctorale: Etant constituée de façon interdisciplinaire, l'école doctorale Sémiotique et philosophie de communication propose une préparation scientifique exigeante qui conduit à la recherche philosophique et sémiotique qualifiée de la communication, de son évolution et de ses relations avec d'autres milieux sociaux. L'enjeu principal de l'école doctorale est l'étude philosophique des stratégies, des présupposés et des effets de communication. Bien qu'elle est conçue de manière théorique, elle peut aussi bien disposer l'étudiant à pénétrer dans la pratique médiatique de masse, parce qu'elle aide à comprendre le rôle de la sémiosis dans le processus de médiation. Les étudiants sont menés à prolonger les lignes traditionnelles de recherche en sémiotique et philosophie de communication tchèque et mondiale, ainsi qu'à suivre les connaissances théoriques actuelles et à les développer de façon créative.

Further information: <http://fhs.cuni.cz/FHSENG-449.html>

Deutsche und französische Philosophie

Dieses Doktorstudium wird für das Präsenz- und das Fernstudium ausgeschrieben. Es können sich alle bewerben, die sich für die Gebiete der klassischen und neueren deutschen Philosophie, der französischen Philosophie des 19. und 20. Jahrhunderts, der deutschen und französischen Phänomenologie sowie der gegenwärtigen internationalen Rezeption dieser Philosophien interessieren und die Aufnahmebedingungen (erforderliche Unterlagen s. u.) erfüllen. Der Studienplan der Doktoranden in diesem Programm sieht folgende, während des zweijährigen Studiums (Mindeststudiendauer) zu erbringende Leistungen vor: Neben der Anfertigung von mindestens drei Hausarbeiten im Anschluss an die Pflichtveranstaltungen laut Akkreditation sind dies mindestens drei zu publizierende Artikel, die Teilnahme an mindestens drei Konferenzen sowie mindestens zwei thematisch im Zusammenhang der Doktorarbeit stehende Forschungsaufenthalte im Ausland. Der Studienabschluss besteht im Nachweis der genannten Leistungen, der Vorlage der Doktorarbeit sowie in ihrer Verteidigung im Rahmen einer Promotionsprüfung. Die mit Erfolg abschließenden Promovenden dürfen den Titel Ph.D. führen.

Further information: <http://fhs.cuni.cz/FHSENG-443.html>

Moderne Europäische Geschichte

Das Studienfach Europäische Zeitgeschichte bildet theoretisch und methodisch hervorragend geschulte, dabei empirisch gut verankerte Fachleute für die Geschichte Europas und speziell der böhmischen Länder im 20. Jahrhundert aus. In Anknüpfung an die Magister-Studienprogramme Europäische Kultur- und Geistesgeschichte bzw. Oral History konzentrieren sich die möglichen Dissertationsthemen vor allem auf die Kultur-, Sozial-, Ideen-, aber auch auf die Politik- und Alltagsgeschichte Europas seit dem Ende des Ersten Weltkrieges sowie auf die komplex verstandene Geschichte der Tschechoslowakei bzw. der böhmischen Länder im europäischen Kontext. Die Absolventen dieses Faches können schließlich als akademische Mitarbeiter in einem breiten Spektrum der historisch orientierten Fächer arbeiten, daneben öffnen sich ihnen Karrieremöglichkeiten u. a. im Bereich der Staatsverwaltung, des öffentlichen Sektors (Regierungs- und Nicht-regierungsorganisationen) und der Medien.

PhD in Economics Programme (4 years)

The Center for Economic Research and Graduate Education – Economics Institute (CERGE-EI) offers a PhD programme of doctoral studies in theoretical and applied economics. The CERGE-EI PhD in Economics programme is intended for outstanding students who desire rigorous graduate education in economics at a modern, international institution with the goal of pursuing an academic career or entering a high-level position in an international organisation, central bank, government ministry or the private sector. The Social Science Research Network (SSRN) ranks

CERGE-EI in the top 2 percent of more than 1,500 research institutions worldwide. Research Papers in Economics (RePEc) ranks CERGE-EI in the top 5 percent of economic departments/ research institutions worldwide.

The PhD programme consists of two years of coursework (Microeconomics, Macroeconomics, Statistics/Econometrics, Academic Writing + specific elective courses), typically followed by two years of supervised dissertation research. The working language of the institution is English. CERGE-EI encourages its students to conduct part of their dissertation research at partner institutions in Western Europe and North America, as well as to participate in collaborative research projects in other countries.

Further information: <https://www.cerge-ei.cz/phd-admissions/program-details>

Eligibility for study

Students are expected to have a good background in mathematics, as well as sufficient English language skills to fully understand the study material. Undergraduate training in economics is welcomed, though not essential. Applicants are required to hold a Master's degree (or equivalent) or expect to complete their Master's studies by June 2016.

How to apply

Students should submit the on-line application form and upload a CV, motivation letter, verified copies of diplomas and transcripts, and other relevant documents. Two letters of recommendation are required.

For complete list of application materials please visit the Institute's website at:

<https://www.cerge-ei.cz/phd-admissions/how-to-apply>

Documents are evaluated by the Admissions Committee of CERGE-EI. Applicants may be directly admitted or invited to the summer Preparatory Semester to receive intensive training in intermediate Microeconomics, Macroeconomics, and Mathematics. The PhD programme begins in September every year. Approximately 30 students are usually offered admission to the PhD programme each year.

Application form: <http://www.cerge-ei.cz/phd-online-application>

Application deadline: 30 April 2016

Annual tuition fee: up to 15,000 EUR** (Almost all students receive full scholarships, including tuition waivers and living stipends, and thus can focus on their studies. Students in good academic standing retain their scholarships for a full four years, after which CERGE-EI provides teaching and research opportunities until their dissertations are completed).

Further information: <https://www.cerge-ei.cz/phd-admissions/tuition>.

No separate application for a stipend is necessary.)
