Bachelor's and Master's Study Programmes

Charles University is a leading research university that combines high-quality science, research and education on both a global and national scale. Charles University has over 50,000 students, including foreign students coming to the university to obtain their degree. Charles University offers accredited degree programmes at Bachelor, Master and Ph.D. levels.

Requirements and Standards

All prospective students have to meet the following admissions criteria:

- Be high school graduates (Secondary school leaving certificates gained abroad are subject to nostrification. If an international agreement on recognition of equivalence exists, confirmation of equivalence is issued. The process of nostrification of documents enabling access to higher education is regulated by decrees of the Ministry of Education, Youth and Sport).
- In case of a Master's degree following from the Bachelor's degree, hold a Bachelor's degree in related field.
- Entry into a doctoral study programme is based on submission of a Master's diploma.
- All applicants are required to submit to the respective faculty a completed application form with nonrefundable application fee and pass the entrance exams (usually combination of written and oral exam; practical exam may be required. More specific entry requirements are determined, in accordance with the law, by the dean of the faculty. If applying for studies in Czech the entrance exams are administered in the Czech language, if applying for studies in English the exams are administered in the English language).

Application Forms

Students can submit their applications using the university online application. The application forms can also be downloaded from the faculty web site or send by mail upon request.

Entrance exams

Exams are held during the period of June–September according to the respective faculty.

Legal Conditions for International Students

General Information

Foreign nationals (with exception of EU members) applying to study in the Czech Republic have to contact the Czech embassy or Ministry of Interior of the Czech Republic in order to obtain up-to-date information on visa requirements for study purposes.

Visa and Residence Permit

Due to the Czech Republic's membership of the EU, citizens of European Union (EU) countries, citizens of European Economic Area (EEA) countries, and citizens of Switzerland, do not require any visa for any type of visit or stay in the Czech Republic. Foreign nationals from outside the EU need to go to the Czech Embassy to apply for either **a long-term visa for the purpose of studies** (for stays over 90 days up to several months) or **a long-term residence permit for the purpose of studies** (if they intend to stay more than 1 year). Both can be extended repeatedly. The advantage of the residence permit is longer validity and the possibility of changing its purpose of stay. On the other hand, the visa for the purpose of studies does not cost anything while the residence permit costs CZK 500 for filing the application and then CZK 2,500 when collecting the residence card in the Czech Republic. When applying for the **long-term residence permit**, students will receive a special single-entry visa for the purpose of collecting the long-term residence permit (a plastic biometric card) in the Czech Republic. This visa is granted for a maximum stay of 60 days.

Admission procedure

Choose a study programme

Visit the faculty website

Information on specific admission requirements and application procedures.

Application forms.

Application form

Online: <https://is.cuni.cz/studium/eng/prijimacky/index.php>

May also be obtained from the faculty website.

Recognition of previous education

Must be submitted to the respective faculty by 30 September.

Confirmation of application

Wait for an invitation letter to the entrance exam (if applicable).

Visa for up to 90 days

Prospective students with visa duty are advised to apply for a tourist visa to be able to enter the Czech Republic and take the entrance exams.

First Faculty of Medicine in Prague

Charles University, First Faculty of Medicine

Kateřinská 32, 12108 Praha 2, Czech Republic

Phone.: +420 224 964 378, +420 224 964 242, fax: +420 224 964 317

e-mail: fsad@lfl.cuni.cz or admissions@lfl.cuni.cz

web: <http://www.lfl.cuni.cz/en>

The First Faculty of Medicine has been a part of Charles University since its foundation in 1348 and is the oldest medical faculty in Central Europe. The basic purpose of the faculty is to train medical doctors in such a way as to provide them with a broad general medical education, and a thorough theoretical basis, so that they are able to think and communicate scientifically and medically, and offer basic medical care.

Master's Programmes:

- General Medicine (6 years)
- Dentistry (5 years)

The curriculum is finished with the degree MUDr. – “Medicinae Universae Doctor” (M.D.) = Doctor of General Medicine or MDDr. = Doctor of Dental Medicine. The degrees are fully recognized in EU and in most of the other countries. Both medical programmes are based on regular full-time studies and have a structure of traditional courses, which means that teaching includes both theoretical and practical/clinical trainings. Graduates of the General Medicine programme are ready to pursue career in various fields of medicine as well as the Dental Medicine graduates are ready to work in dental medicine and associated fields.

Admission procedure

Application can be done directly to First Faculty of Medicine by filling in the online application form or by contacting one of our representatives, who will help with filling of electronic application. You have to pay 590 CZK for application registration. Without payment the applicant won't be allowed to attend the entrance exam. Students are offered a place at the Faculty based on their result in entrance examination. It consists of written multiple-choice test from Biology, Chemistry and Math or Physics and an interview for those who successfully pass the written part. Successful candidates must achieve at least 244 points out of 300. Naturally both test and interview are in English and supervised by the Faculty's examiners. Those who will be successful and will be offered a place in the faculty has to provide recognition of high school education. The maximum number of enrolled students is 150 for GM and 20 for Dentistry. Should you wish to apply through one of the official representative please contact them for details.

For further information about the whole admission process in detail and list of representatives please visit our website on: <http://www.lfl.cuni.cz/en/master-studies>

Application form: on the web site

Application deadline*: May 31, 2017

Annual tuition fee:** CZK 360,000/ EUR 13,300

Second Faculty of Medicine in Prague

Charles University, Second Faculty of Medicine

V Úvalu 84, 150 06 Praha 5, Czech Republic

Phone: +420 22443 5810, +420 22443 5833, fax: +420 22443 5820

e-mail: admissions@lfmotol.cuni.cz, renata.habetinova@lfmotol.cuni.cz

web: <http://www.lf2.cuni.cz/en/study/applicants/our-course>

The faculty came into existence as an independent faculty of paediatric medicine in 1953 when paediatrics was separated off from what was then the Faculty of Medicine. Since 1990, when major changes in the content and style of studies took place, the Faculty has been known as the 2nd Faculty of Medicine. Studies at the 2nd Faculty of Medicine may only be undertaken on a full-time basis in the field of general medicine, and take six years. Graduates of the faculty are equipped for careers in any branch of medicine. They are well prepared for careers in family medicine, for specialized paediatric fields and other areas where a continuous and dynamic developmental view of the patient is essential. The teaching programme involves theoretical and pre-clinical subjects (1st to 3rd year) followed by the clinical disciplines (4th to 6th year). Every international student is obliged to pass an examination from the Czech language at the end of their 3rd study year to be able to communicate with the patients and the staff during their study of clinical subjects. During their study, the students have also an opportunity to get the basic knowledge in a field of research or medicine of their choice.

M.D. Programme:

- General Medicine (6 years; M.D. degree - MUDr. = Medicinae Universae Doctor)

Admission requirements

The Second Faculty of Medicine offers two enrolment options ('tracks'):

- Track A involves passing a standardized SAT test. You don't need to travel abroad, just take the test in your own country (or nearby) and see if you meet our criteria.
- If you choose Track B, you'll come to our university here in Prague and sit written and oral exams in one day.

The entrance procedure has two parts, a written test and an interview. The written part includes biology, physics, chemistry and logical decision test. The required level of knowledge corresponds to that of Secondary Education. The topics and examples of the entrance test can be found at our website. To minimize any problems, the evaluation of completed written tests is *anonymous* and fully computerized. For updated information, please see our website. The applicants with the best results from written test will be enrolled for the interview which will take place on the same day as written test. The interview is focused on the applicant's ability to discuss different topics based on general education (like cultural, social, ethical or health problems etc.) with valid reasoning to their argumentation. The total number of points obtained during the entrance examination (the sum of points for the written test and the interview) is the decisive factor for successful admission into the study programme.

Estimated number of accepted students: max. 80

Application form: on the web site

Application deadline*: April 30 (for the entrance test that will take place on May 30)

June 10 (for the entrance test that will take place on July 10)

June 15 (for SAT tests results)

Annual tuition fee:** CZK 310,000/ EUR 11,450

Transfer from another Faculty of Medicine is possible under very specific conditions. See the faculty website for more information: <http://www.lf2.cuni.cz/en/study/applicants/conditions-for-transfer> or contact: stanislava.palowska@lfmotol.cuni.cz

Third Faculty of Medicine in Prague

Charles University, Third Faculty of Medicine

Ruská 87, 100 00 Prague 10, Czech Republic;

phone: +420 267 102 206 fax: +420 272 730 776

e-mail: miriam.krizova@lf3.cuni.cz

web: <http://www.lf3.cuni.cz/en/index.html>

The Third Faculty of Medicine of the Charles University was separated from the Faculty of General Medicine in 1953 as an independent Medical Faculty of Hygiene, which then specialized in problems of hygiene and preventive medicine. In 1990 the faculty developed a new study programme and a revised conception of studies, which emphasized a primary orientation toward general medicine while retaining a specific interest in preventive care. The medical (Master's) programme takes 6 years, with the first two years devoted to basic medical sciences, the third year to pre-clinical subjects and the fourth to the sixth year to clinical practice. Preventive medicine is included in both types of training, theoretical and clinical.

Master's Programme:

- General Medicine (6 years; Leading to MUDr. degree = Medicinae Universae Doctor)

Admission requirements

The Faculty seeks students with appropriate academic qualification, good command of English and high motivation to study medicine. There is an obligatory entrance examination, consisting of two parts. The first is a multiple-choice test in chemistry, biology and physics OR mathematics (30 questions for each subject). The second part consists of an interview focused on the motivation and general knowledge of the student together with an interpretation a scientific text.

Prerequisites for admission without the need to carry out an entrance examination are available on the web site <http://www.lf3.cuni.cz/3LFEN-11.html>

Number of admitted applicants: approx. 70 students

Application form: on the web site: <http://www.lf3.cuni.cz/en/applicant/application-form>

Application deadline*: March 15, 2017 for the entrance examination in April 2017
March 31, 2017 for the entrance examination in May 2017
April 30, 2017 for the entrance examination in June 2017

the entrance exams also take place in Oslo, Stockholm, Helsinki, Limassol, Galway, Madrid, Lisbon, Hannover, Münster, Tel Aviv (earlier applications required – see: <http://www.lf3.cuni.cz/en/applicant/how-to-apply>)

Annual tuition fee:** CZK 330,000 / EUR 12,200

Premedical course

Third Faculty of Medicine, Charles University offers the 5-month preparatory course for international students taught in English. The intensive premedical course aims to prepare for successfully passing the entrance examinations to study General Medicine in the English curriculum. The course consists of lectures in subjects tested in the entrance examinations for medical programmes. In addition there are two other classes: basics of communication in the Czech language and medical English. Applicants must be of minimum age of 18.

Duration: January 10 – May 31, 2018

Application deadline*: October 15, 2017

Application form: on the web site
<http://www.lf3.cuni.cz/en/applicant/premedical/general-information.html>

Tuition fee:** CZK 110,000 / EUR 4,050 (The tuition fee does not include accommodation, text-books, meals and health insurance)

Applicants must make their own arrangements for:

- Accommodation
- Health insurance coverage

To learn more, please go to: <http://www.lf3.cuni.cz/3LFEN-15.html>

Faculty of Medicine in Pilsen

Charles University, Faculty of Medicine in Pilsen; Study Department for Medical Studies in English

Lidická 1, 301 00 Plzeň, Czech Republic

phone: +420 377 593 175

e-mail: medstudy@lfp.cuni.cz, web: <http://www.lfp.cuni.cz/index.php>

The Charles University Medical Faculty in Pilsen was established by a Czechoslovak presidential decree in 1945 as part of what was then the only CU Medical Faculty in Prague, but it rapidly won independent status and accreditation for its master's programmes. Medical studies are divided into two basic branches general medicine and dental medicine. These are structured in the same way as the courses in the other university medical faculties the first two years are devoted to theoretical studies, the second two years to preclinical subjects, and the final years to clinical disciplines.

Master's Programmes:

- General Medicine (6 years) – title MUDr.
- Dentistry (5 years) – title MDDr.

Graduates obtain the degree of Doctor of General Medicine or Doctor of Dental Medicine from Charles University. Those degrees are widely recognized in many countries.

Admission requirements

The applicant must present a secondary school certificate. British GCEA Levels or equivalents are normally required in three subjects (Chemistry, Physics and Biology). The applicant must satisfactorily pass the entrance examination in Physics, Chemistry, and Biology. Applicants are expected to have secondary school knowledge but the University allows for reasonable differences in levels of knowledge in students of different schools and countries.

Admission exam for the English class is organized in following possible terms:

- In June for students who are able to take part directly at the Faculty of Medicine in Pilsen
- During summer vacation in the applicant's country by the appropriate agency

Application form: on the web site

Application deadline*: May 19, 2017

Annual tuition fee:** CZK 260,000 / EUR 9,600 (General Medicine)
CZK 320,000 / EUR 11,850 (Dentistry)

The fee covers all instruction (lectures, seminars, laboratories, clinical training and tutorials)

Preparatory course

Students may also follow a one-year preparatory course in the Czech Republic. The course is offered in cooperation with the Institute for Language and Preparatory Studies of Charles University. The courses take place in Podebrady Study Center and include 26 lessons a week of English language and basic sciences (Chemistry, Physics and Biology). For more information about the course, please contact:

Charles University, Institute for Language and Preparatory Studies

Jiriho nam. 1, 290 36 Podebrady, Czech Republic

Faculty of Medicine in Hradec Králové

Charles University, Faculty of Medicine in Hradec Králové

Šimkova 870, 500 03 Hradec Králové, Czech Republic

Phone: + 420 495 816 487, +420 495 816 178, +420 495 816 438

e-mail: students@lfhk.cuni.cz, web: <http://www.lfhk.cuni.cz>

This Faculty started its educational activities in 1945 as the first Charles University Faculty outside Prague. At present there are 1,495 students studying General Medicine and Dentistry in the undergraduate medical degree study programmes. Since 1992 the Faculty has organised study programmes in English (404 students of 46 nationalities are studying in the academic year 2016/2017). 105 places in General Medicine and 25 places in Dentistry are available in the first year of English courses. The curricula of Czech and English study programmes are entirely parallel and fully comparable with the current international standards. They are accredited throughout the world including EU and USA (our graduates are successful in USMLE tests).

Study Programmes in General Medicine (6 years) and Dentistry (5 years) are arranged along the lines of theoretical, pre-clinical and clinical studies in 42 theoretical (pre-clinical) departments, clinics and institutes. The clinical instruction takes place in the Faculty Hospital – a complex of 37 clinics and departments with 1500 beds and a staff of 4000 doctors and nurses.

Two types of the accommodation are available - hostel type and private flats for renting. See continuously up-dated info on our Web page.

Master's Programmes:

- General Medicine (6 years) leading to MUDr. = Medicinae Universae Doctor (equals to M.D. degree)
- Dentistry (5 years) leading to MDDr. = Medicinae Dentium Doctor

Admission requirements

Students who have completed secondary school education are considered eligible for medical studies. There is an entrance procedure held in English based on a written testing of the applicant's knowledge of basic science (biology, chemistry and either physics or mathematics - according to individual preference) and an oral interview oriented towards personality and motivation of the applicant. Requirements for the entrance procedure are specified on our website <http://www.lfhk.cuni.cz> (under "Applicants – Undergraduate study - Admission Process"). Holders of A-level certificates (or equivalents) in these subjects from the last two years with grades "A" or max. one "B" may be exempted from the entrance examination. 105 places in General Medicine and 25 places in Dentistry are available each year in the first year of English programmes.

Application form: on the web site

Application deadline*: May 16, 2017

Entrance exams take place in Hradec Kralove and in about 20 locations abroad according to requests of our co-operating agencies - see info and the list of agencies on our web pages.

May 5 – for "direct admission" (A-levels, IB diploma, SAT tests in Biology, Chemistry, Physics or Mathematics)

Annual tuition fee:** CZK 310,000 / EUR 11,450 (General Medicine)
CZK 340,000 / EUR 12,600 (Dentistry)

Examination fee: no examination fee

Premedical course

**Pre-medical programme is available at Charles University,
Institute for Language and Preparatory Studies**

Faculty of Pharmacy

Charles University, Faculty of Pharmacy

Akademika Heyrovskeho 1203, 500 05 Hradec Kralove, Czech Republic

Phone: + 420 495 067 429, fax: +420 495 518 002

e-mail: krieglerova@faf.cuni.cz, web: <http://www.faf.cuni.cz/en/>

Over the centuries the study of pharmaceuticals has undergone many developments and organizational changes. The CU Faculty of Pharmacy in Hradec Kralove draws on a centuries-old tradition of the study of pharmacy reaching back to the very beginning of Prague university (for example, from the founding of the university in 1348 the apothecaries of the Prague towns became members of the university community by swearing an oath to the

rector and being registered on the university roll). The independent Faculty of Pharmacy was established in 1969 on the basis of a government decree.

Master's Programme:

The study programme comprises compulsory, recommended and optional course. The graduates (master's degree) obtain during the course of study and according to the study plans knowledge of:

- Pharmacy (5 years)
- medicaments and medicinal preparations as well as about the substances used for their preparation;
- pharmaceutical technology and the physical, chemical, biological, and microbiological evaluation of medicaments and medicinal preparations;
- about metabolism, the effects and uses of medicaments and medicinal preparations, and about the actions of toxic substances;
- evaluation of scientific data dealing with medicaments for the purpose of providing appropriate information to patients and about legal and other aspects dealing with the pharmaceutical practice (storage and distribution of medicaments and medicinal preparations wholesale as well as in pharmacies, responsibility for the quality etc.)
- diploma thesis and final state exam leading to Master degree (Mgr. fully equivalent to MSc, and optional Doctor of Pharmacy degree, Pharm.Dr)
- possibility to join excellent research teams at our faculty during your studies during your undergraduate study

The graduate is prepared to work on the research of new medicaments and medicinal preparations on their production, control, and distribution; in the pharmaceutical service; information service; management; clinical pharmacy, pharmaceutical education; and biochemical and other laboratories.

Admission

Secondary school certificates (study reports from each study year, list of subjects with number of lessons, leaving certificate or school graduation certificate). English certificate TOEFL 50-70 or IELTS 5.5 – 5.0. or equivalent. All documents should be presented in an authenticated English version. Potential student will be contacted for short entrance interview via skype after 30th of June. Application form is available at <http://www.faf.cuni.cz/Admission/Undergraduate/>.

Application form: on the web site

Application deadline*: June 30, 2017

Annual tuition fee:** CZK 205,000 / EUR 7,600 (Waivers of up to minus 20% after the 1st year of study are available in the case of very good study results).

Faculty of Arts

Charles University, Faculty of Arts

Nám. Jana Palacha 2, 116 38 Prague 1, Czech Republic

Phone: +420 221 619 834, e-mail: marie.hankova@ff.cuni.cz

web: <http://www.ff.cuni.cz/home/>

The Faculty of Arts of Charles University was established in 1348. For centuries, right up to the middle of the last century, every university-trained student had to graduate from it. It can be said that its history is, in a certain sense, the history of the entire university. Since being granted its independence at the beginning of the 19th century, the Faculty of Arts has been concentrating on its principal concern – the humanities. Today, it is one of the largest CU faculties.

Anglophone Literatures and Cultures

The purpose of the MA programme is to prepare students for professional careers in research, teaching or translation and to develop an intercultural perspective in English studies by bringing together gifted students from the Czech Republic and around the world. Many of our graduates have also gone on to work in the media, diplomacy and international agencies. Graduates of the MA programme have excellent written and spoken English, significant experience in creatively developing and researching the topic of their final thesis, and advanced knowledge of the critical and historical contexts of the study of Anglophone literatures and cultures:

Forms of Study

- Single Subject Study: Single Subject students are enrolled only in this MA programme. Single Subject students must obtain 120 credits in total, out of which 12 are elective.
- Double Subject Study: Double Subject students are enrolled in English and American Studies AND another subject within the Faculty of Arts. They must pass the entrance exams in both subjects. At the conclusion of their studies, they must choose a thesis topic in one of their two subjects of study.

General Structure

Students select an area of specialisation according to their research interests.

Special Programmes and courses:

- English Literature
- British and Commonwealth Cultural Studies
- American Literature and Cultural Studies
- Irish Studies
- Critical and Cultural Theory

The MA degree is concluded by the MA Thesis and the Final Exams.

TEMA – European Societies: Identity and Development/ Sociétés Européennes: Identité et Développement

A 2-year-long Master's programme. The course is offered by a consortium of four universities: ELTE Budapest, EHESS Paris, University of Catania and Charles University.

The study programme is organized in four major modules: civilization, nation, region and city, that represent four research scales, as well as four different approaches to historical, political, social and cultural issues of space and those of territory. The TEMA Master provides students with an indepth understanding of European cohesion policy and regional development emphasizing on legal framework and scientific analysis.

According to the two objectives of the Master Course, i. e. guaranteeing a certain homogeneity in training as well as highlighting the specificities of each partner university, the

TEMA curriculum is divided into two parts: a common study core of foundational and methodological courses on one hand, and specialized and research courses on the other hand. The curriculum also offers two intensive weeks focusing on a specific subject of the TEMA programme. Students are required to study at two partner universities. Students choose the hosting and the mobility institutions on the application form. The final decision on the students' mobility track is taken by the TEMA Academic Board in accordance with the students' scientific interests and needs.

An individual tutorial supervision is offered to each student. The students receive a systematic introduction to scientific research within the framework of the methodological seminars in view of defending their master thesis with success in semester 4.

Eligible are students having a first degree (BA/BSc /180 ECTS/) in History, Geography, Anthropology, Ethnography, Cultural studies, Urban Studies, Nationalism Studies, Law, Economy, Administration. The selection is based on academic excellence and proficiency in English and in French, which are the languages of instruction.

TEMA graduates receive double or multiple degrees (according to their mobility track), as well as a diploma supplement at the end of their studies, allowing them to enter into the professions in the area of local, regional, national and European territorial administration, in urban planning and research institutions.

Website:

www.mastertema.eu

Application Deadline*:

Applicants must send their application package before February 17, 2017 (date of post-mark)

Starting date:

September 2017

Study Period:

2 years

Language:

Both English and French or English only option.

Tuition Fee for EU students:**

2,000 EUR/Year

Tuition Fee for 3rd country students:**

6,000 EUR/Year (partial tuition fee waiver is possible)

The Faculty of Law was also one of the four founding faculties of Charles University in 1348 and as such it is ranked among the oldest law faculties in Europe. For its more than 4.500 regular students it offers a complete legal education (providing both master and doctoral programmes). Among the teachers there are prominent legal scholars, international judges, practicing lawyers etc.

International Master of Laws (LL.M.)

The LL.M. Programme is a specialized curriculum designed for graduates who already possess their first university degree in law. The aim of the Programme is to deepen knowledge of the participants in the chosen area and to improve their theoretical as well as practical legal expertise and excellence. To this end the content of individual courses within the LL.M. curriculum is not to be purely theoretical, but quite to the contrary – the courses are highlighted by an interactive approach focused on practical skills and knowledge. It is undertaken to offer various extracurricular activities to the participants – such as case studies, moot courts, clinics, excursions, mini-conferences etc. Prominent international scholars will also be invited to participate in the Programme, either by way of individual lectures or whole courses.

The LL.M. is offered in three different specializations:

The Law and Business in the Czech Republic and Central Europe

This LL.M. Programme offers its participants a unique chance to cover in detail all areas of the Private Law relevant for Central European countries. That means that the Programme does not solely deal with local legislation governing business activities. On the contrary, it provides students with broad exposure to various fields and relevant regulations. Special emphasis is given to the legislative impact of the European Union and also to the aspects of Private International Law. An integral part of the Programme will be excursions – e.g. to the Czech National Bank, High Court in Prague, Metropolitan Court in Prague, Stock Exchange, Economic Chamber of the Czech Republic, Agricultural Chamber of the Czech Republic, Arbitration Court attached to the Economic Chamber of the Czech Republic and to the Agricultural Chamber of the Czech Republic. With additional background given to the general economic theories and issues, this Programme is aimed especially at lawyers potentially or already working in the economic sector as in-house counsels, auditors or attorneys specialized in Business Law.

General courses:

- Business and Commercial Law
- Civil Law and Judicial Protection of Rights
- EU Regulation of 4 Market Freedoms and EU Competition Law
- International Economic Law
- Private International Law and International Business Transactions

Courses of specialization:

- Comparative Civil Law
- EU Law - General Introductory Course (Mandatory for students from non-EU countries who cannot prove previous sufficient background in EU Law)
- Financial Law
- Intellectual Property Law in European Context
- Labor Law and Social Security Law
- Public Policy: An Economic Perspective
- Regulation of Business Activities by Administrative Law and Environmental Law

International Human Rights Law and Protection of the Environment

This LL.M. Programme, which focuses on international human rights law and protection of the environment, offers an interdisciplinary approach to these two fields, which are closely connected in international theory and practice. International human rights and liberties protection as well as international and national protection of the environment are marked by a very dynamic development. The interdisciplinary approach of this Programme is exhibited by a combination of perspectives from different legal branches. First of all, there is a focus on International Law, European law and Environmental Law; other relevant legal disciplines will then be presented. The current concept of the LL.M. Programme, which connects the protection of human rights and Environmental Law, corresponds directly to modern trends and should be attractive for applicants who are interested in the connection of these two subjects.

General courses:

- Environmental Law in the Czech Republic
- Environmental Policy and International and European Law
- European System of Human Rights Protection
- Introduction to the International Human Rights Protection System
- Theory and Practice of International Public Law

Courses of specialization:

- Development of Supranational Integration and European Law
- Environmental Law and its Functioning in Central Europe
- EU Law - General Introductory Course (Mandatory for students from non-EU countries who cannot prove previous sufficient background in EU Law)
- Human Rights and the Environment
- International and European Migration Law
- International Protection of Minorities
- Protection of Fundamental Rights from Czech and European Constitutionalist Perspectives
- Theory of Human Rights

Health and Law

This brand new LL.M. Programme seeks to provide its participants with a unique opportunity to become familiar with intricate legal issues related to human health, mental and physical well-being, healthcare systems and also sport activity. Graduates from this Specialisation may find legal jobs in various institutions of the healthcare system such as hospitals, ministries and other public agencies. Given the fact that the Programme covers substantially also the area of sports law, graduates may enhance their knowledge and skills for future employment with various sport associations or clubs. In addition, those interested in pursuing a career in the pharmaceutical sector or as attorneys specialised in health and/or sports law may find this Programme beneficial. Mandatory courses cover areas such as general introduction to health and sports law, liability of healthcare practitioners and facilities, pharmaceutical law and bioethics. Additional optional courses enable the participants to focus more closely on various related areas, where law meets with issues connected to health, e.g. healthcare systems in comparative cross-cultural legal perspective, doping and law, public health, liability issues and contracts related to physical activities and sport, dispute resolution of specific sport-related disputes.

General courses

- Introduction to Health Law
Legal Liability in Healthcare
Pharma Law and Law on Medical Devices
- Ethics, Medicine and Law
General Introduction to Sports Law and Related Health Policy

Courses of specialisation

- Public Health
Healthcare in Cultural and Religious and other Perspectives
US and European Perspectives on Health Related Issues in Sport
- Civil and Criminal Liability in Sport, Contractual Obligations in Sport
Doping, Health and Law Dispute Resolution in Sport-Related Matters

Organization of the LL.M. Programme

The LL.M. Programme is organized into 3 semesters (two semesters of on-site study, one additional semester of distance study for writing a thesis and its defense). Students will be required to earn a minimum of 60 credits during the first two semesters through course work, written assignments and exams. Students are required to complete 5 general courses (each for 8 ECTS). Moreover they are obliged to choose and complete at least 4 courses of specialization (each for 5 ECTS). In the third semester students are expected to attend an LL.M. Thesis Seminar, complete the LL.M. Thesis under supervision of a tutor and defend it before a committee. Upon defending the LL.M. Thesis and meeting all other requirements, the successful candidates are awarded with the LL.M. degree (in compliance with Section 60a of the Act No. 111/1998 Sb.)

Admission requirements

Each Candidate must meet specific requirements and submit the Application Form (available online at www.prf.cuni.cz/llm) together with all required supporting documents listed here:

- Motivation Letter;
- Candidates must hold a university degree in law and attach its verified photocopy;
- 2 Letters of Recommendation from university professors;
- For non-native speakers proof of competence in the English language (TOEFL etc.) unless they carried out their previous university studies predominantly in the English language;
- Curriculum Vitae;
- Payment of the application fee of USD 200;
- List of previous scientific publications (if applicable).

Each candidate's application will be reviewed by a committee comprised of professors and other representatives of the Faculty of Law after the application deadline. Successful candidates will be notified of their admission then after and will be asked to sign the Learning Agreement.

Tuition fee**:	USD 6,000 (for the entire programme) + application fee USD 200
Application Deadline*:	30th April, 2017
Commencement of the Programme:	October, 2017

Faculty of Mathematics and Physics

Charles University, Faculty of Mathematics and Physics

Ke Karlovu 3, 121 16 Praha 2, Czech Republic

Phone: + 420 951 551 217, fax: +420 221 911 292

e-mail: info@mff.cuni.cz, web: <https://www.mff.cuni.cz/admission/admission/>

Contact person: Mrs. Kristýna Kysilková, PhD.

Mathematics and astronomy have been taught at Charles University since its foundation. At that time, these sciences were parts of Liberal Arts taught in the Faculty of Arts. The Faculty of Science was created by separation from the Faculty of Arts in 1920. The Faculty of Science was divided in 1952, creating two new faculties - Faculty of Mathematics and Physics and Faculty of Natural Sciences. Today, the Faculty of Mathematics and Physics provides education in the fields of Mathematics, Computer Science and Physics, in three-year bachelor's and two-year master's programmes. In the Academic Year 2015/2016, the following study programmes and branches are open for study in English.

Bachelor's Programmes

Computer Science: General Computer Science

Entry Requirements for Bachelor's Programmes

To apply for the Bachelor of this programme delivered in English you must

- hold or be working towards a School Leaving Certificate (Diploma) or its equivalent; in cases required by law, a certification of equivalence of education must accompany the application;
- meet the Reasoning Requirements, and
- provide a sufficient proof of English Language Proficiency.

Detailed information: <https://www.mff.cuni.cz/admission/admission/>

Master's Programmes

Mathematics:

- Financial and Insurance Mathematics
- Mathematical Analysis
- Mathematics for Information Technologies
- Mathematical Modeling in Physics and Technology
- Mathematical Structures
- Numerical and Computational Mathematics
- Probability, Mathematical Statistics and Econometrics

Computer Science:

- Artificial Intelligence
- Computational Linguistics
- Computer Graphics and Game Development
- Discrete Models and Algorithms
- Software and Data Engineering
- Software Systems
- Theoretical Computer Science

Entry Requirements for Master's Programmes

To apply for the Master's Programme of Computer Science, or the Master's Programme of Mathematics, delivered in English, you must

- hold or be working towards a bachelor's or master's diploma and provide a certified copy thereof. In cases required by law, a certification of equivalence of education must accompany the application,
- have **sufficient academic background** in the relevant fields; this can be demonstrated by passing the **specialized entrance examination** in June 2017 in Prague that is organized by the Faculty of Mathematics and Physics, Charles University **or by providing transcripts (academic records) of your previous education** accompanied by syllabi of the completed courses; promising students who do not have this background may be admitted with the provision that they complete the missing Bachelor's courses,
- have sufficient command of the English language; this can be demonstrated by providing your results in one of the standardized English tests that we recognize.

Detailed information: <https://www.mff.cuni.cz/admission/admission/>

Application form: <https://is.cuni.cz/studium/eng/prihlaska>

Application deadline*: Winter round: February 28, 2017
Spring round: May 31, 2017

Annual tuition fee:** 140,000 CZK (5,200 EUR); students from the EU are eligible for a 40 percent discount

For international applicants, the Faculty of Education offers the following types of Bachelor's and Follow-up Master's study programmes.

Bachelor's study programmes (3 years) – subjects:

- English Language Oriented at Education – Music Oriented at Education
- Music Oriented at Education – Musical Instrument Oriented at Education
- Music Oriented at Education – Choir Conducting Oriented at Education

Follow-up Master's study programmes (2 years)

Training teachers of general subjects:

- English Language - Music
- Mathematics
- Music – Musical Instrument
- Music – Choir Conducting

The Faculty of Education also offers short-term studying stays at respective departments

according to the applicants' requests, including the possibility to visit basic or high schools and arranged budget priced accommodation.

Department of Music Education

Charles University, Faculty of Education, Department of Music Education

The music department of our faculty organizes study programmes in English for international students in three fields: music education, conducting choirs and playing an instrument (piano; violin).

Study is structured via a three-year Bachelor's degree and a two-year Follow-up Master's degree.

Through these programmes, students enlarge their theoretical and historical knowledge, as well as their practical vocal, instrumental and conducting skills. They take part in seminars and individual lessons, as well as in musical ensembles (choirs, orchestras). In addition, Prague (as a city with rich cultural tradition) offers great opportunities for musical and other cultural self-realization.

Combinations of study programmes:

- Music Education – Playing an Instrument (piano; violin)
- Music Education – Choral Conducting

Music Education

- Music Theory
- Sight Singing and Ear Training
- Harmony in Use, Harmony and Rudiments of Counterpoint
- Instrumental Study – Piano, Violin
- Vocal Technique, Physiology and Hygiene of the Voice
- Choir Rehearsal, Orchestra Rehearsal
- Theory and History of Musical Instruments
- Singing Performance, Instrumental Performance
- History of Music
- Musical Forms
- Rudiments of Conducting, Choral Conducting
- Composition & Analysis
- Pedagogy of Music Education

Playing an Instrument (piano, violin)

- Major Instrument and Repertoire Creation
- Interpretation Class
- History of Instrument
- Instrumental Literature
- Instructive Literature
- Sight Reading
- Improvisation
- Chamber Music
- Instrumental Methodology and Pedagogy

Choral Conducting

- Rudiments of Conducting Technique
- Eurhythmics
- Score Reduction for Piano, Figured Bass
- Music Listening Activities
- Choral & Vocal Pedagogy
- Musical Aural Analysis
- Sight Reading & Accompanying
- History of Choral Music
- Choral Literature
- Choral Arranging
- Conductor's Practicum, Conductor's Performance
- Ensemble Singing
- Methodology of Choral Singing

Mathematics

The goal of the study is to provide graduates with comprehensive education which will prepare them for the profession of a mathematics teacher at the lower and upper secondary schools of all types. The programme respects a balance of cognitive, didactic and pedagogic-psychological parts of teacher education. An emphasis is put on the use of didactic innovations in the teaching of mathematics with regard to the up-to-date didactic conceptions while building on the knowledge of different fields of mathematics acquired in the bachelor degree of study. The graduates will be prepared to construct school educational programmes with the focus on the integration of different parts of mathematics (arithmetic, algebra, geometry, statistic, financial mathematics, etc.) and various educational areas. The graduates will acquire sufficient amount of knowledge and skills to work in a differentiated way with both pupils talented for mathematics and pupils with special needs not only in mathematics lessons but also within out-of-school activities.

Department of English Language and Literature

Charles University, Faculty of Education, Department of English Language and Literature

Celetná 13, 110 00 Praha 1, Czech Republic

web: webkajl.pedf.cuni.cz

English Language Oriented at Education

Bachelor's study programme

By majoring in English with focus on education, the students will acquire substantial expertise in the areas of linguistics (with a particular emphasis on theory of linguistic disciplines and their practical application), literature written in English, whereby, by studying various literary disciplines, the students will also learn how to analyse and interpret a wide range of literary texts. The practical language part of the curriculum will boost the students' language skills so that by the time of graduation they will have reached B2-C2 level of the Common European Framework of Reference for Languages. By successfully majoring in this BA programme, the students will qualify to be admitted to the magisterial follow-up programme primed for secondary school teachers.

English Language

Follow-up Master's study programme

The core expertise taught within the MA study builds on the preceding BA study programme, and consists of a set of symbiotically interconnected linguistic, literary and didactic disciplines designed to give the graduate substantial knowledge in all these, in correspondence to the MA level. The graduate is thus prepared to work as an English teacher at all types of primary and secondary schools.

Application deadline*: May 31, 2017

Annual tuition fee:** EUR 4,000 (CZK 108,000)

Faculty of Social Sciences

Charles University, Faculty of Social Sciences

Smetanovo nabřeží 6, 110 01 Praha 1, Czech Republic, phone: + 420 222 112 287

e-mail: admissions@fsv.cuni.cz, web: <http://www.fsv.cuni.cz>

The second most recent of Charles University's seventeen faculties was set up in 1990 to produce graduates with the necessary qualifications for work in the civil service, administration, economic management, social policy and social work, the diplomatic services and the mass media of all kinds, and also as a research institution in the fields of sociology, economics, public opinion, political relations, international relations and mass communication. The Faculty of Social Sciences currently offers one fully accredited Bachelor's degree programme, nine fully accredited Master's degree programmes, two double-degree pro-

grammes, jointly with University College London and University of Strasbourg and one joint-degree programme in cooperation with Leiden University, Jagiellonian University in Krakow and University Pompeu Fabra in Barcelona, all taught in English.

- **Bachelor in Economics and Finance (3 years)**
- **Master in Economics and Finance (2 years)**
- **Corporate Strategy and Finance in Europe (MA, 2 years, with University of Strasbourg)**
- **Balkan, Eurasian and Central European Studies (MA, 2 years)**
- **Central European Comparative Studies (MA, 2 years)**
- **Master in Area Studies (2 years, with Leiden University, Jagiellonian University and University Pompeu Fabra)**
- **International Masters in Economy, State and Society (2 years, with UCL)**
- **Geopolitical Studies (2 years)**
- **International Economic and Political Studies (MA, 2 years)**
- **Master in International Security Studies (2 years)**
- **Master in International Relations (2 years)**
- **Master in Public and Social Policy (2 years)**
- **Sociology in European Context (MA, 2 years)**

Bachelor in Economics and Finance (BEF)

is a three-year programme offered to students with a completed secondary education. This programme is taught at the Faculty of Social Sciences by members of the Institute of Economic Studies (IES). The programme aims to give the student a thorough grounding in both theoretical and applied economics and finance. We put emphasis on developing abstract analytical reasoning, which allows our graduates to solve complex economic and financial problems in various settings. The applicants must have solid background in Mathematics and good command of English. Courses are taught both by IES faculty and external professionals from the central bank, commercial banks and business analysts. Graduates typically assume challenging positions in banking, consulting, investment funds and public administration.

Master in Economics and Finance (MEF)

is a two-year English-language Master's degree programme which aims to give the student a thorough grounding in both theoretical and applied economics. From the very beginning, the instruction of economics at IES has been designed selectively for students who are capable of abstract analytical reasoning, and this programme is no exception. This emphasis, supported by knowledge of mathematics, is one of the features that distinguish instruction at IES from other Czech economic schools of higher learning. Thus, the competitive edge of IES graduates is based not only on their managerial talent, but also on their analytical and reasoning abilities, and on having the necessary skills to solve problems individually in various environments. IES graduates continue to be in high demand and tend to be successful in both theoretical and practical fields (for example, in public administration, as capital market analysts in banks, investment companies, pension funds, etc.). Instruction and supervision are provided by leading economists and professionals who are involved in both international economic research and in applied economic policy or advisory work for the government. Some staff have had a long career in finance, investment banking and portfolio management in North America. Overall, publication activity is one of the main criteria for evaluating the work of the faculty members.

Corporate Strategy and Finance in Europe (CSF)

Master's double-degree programme (DDP) with the **University of Strasbourg** is a two-year Master's degree programme with common curriculum taught in English offered for students with a completed Bachelor's degree. The programme is based on the Bologna Process, and is intended to facilitate the collaboration between the Institute of Economic Studies, Faculty of Social Sciences, Charles University and Sciences Po Strasbourg, University of Strasbourg in teaching and academic research in the field of Economics.

The Degree Programme covers two academic years. Each student on the Degree Programme is requested to spend one academic year at each of the Partner Universities in line with the Curriculum. Upon the completion of the studies, each student will receive the Diploma Master in "Corporate Strategy and Finance in Europe" from University of Strasbourg and the Master's degree Diploma with the academic title "Magistr" from the Charles University.

The double-degree programme aims at providing the students with a broad knowledge and understanding of economic theory with a focus on financial and international economics corresponding to the present state-of-the-art. Programme's graduates will have the expertise to independently define and creatively solve complex theoretical or practical problems in the field of financial and international economics using selected theories, concepts and methods. The graduates will be eligible to undertake decisions in changing conditions on the financial markets and will possess the insight of the broader social and societal implications of financial and international economics. Double-degree graduates will be able to find position on the global market, both in the financial sector and multinational companies, as well as in the public sector, not only in the Czech Republic or France, but also throughout the European Union. Graduates of both Partner universities are in demand by leading private companies, but also major economic and political organizations and typically assume challenging positions in banking, consulting, investment funds, and public administration.

Balkan, Eurasian and Central European Studies (BECES)

is a two-year Master's degree programme. It addresses the English speaking audience with a deep and versatile exploration of "the East", understood as a territory composed of Central Europe, the Balkan Peninsula, and the Post-Soviet area, including the Caucasus and Central Asia. Primary attention is paid to modern history, politics and diplomacy, as well as to fundamental social, cultural and economic problems. It also offers students the chance to learn or improve their knowledge of the Czech language.

The core courses provide an overview of crucial segments of the area from an analytical and multidisciplinary perspective, while the elective classes allow students to create their own specialization. The aim of the programme is to help students write a Master's thesis of sufficient quality to merit publication. Through the university's network of exchange programmes, talented students may also be offered the opportunity to make a brief research visit to another country in the area. By developing the student's knowledge of the Czech milieu and language, the programme may also serve as an access-point to some of our Ph.D. programmes.

The programme is deliberately structured to take advantage of the multidisciplinary nature of the Faculty, and students will be encouraged to make connections between different fields of study, learning to combine a global perspective with attention to detail and local interests. It is an excellent stepping stone in developing an academic career in any of the Faculty's academic disciplines, as well as a valuable source of analytical skills and practical background knowledge that can be applied in professional life.

Central European Comparative Studies (CECS)

is a two-year Master's degree programme. It focuses on the areas of Germany, Austria and the Visegrad Countries (the Czech Republic, Slovakia, Poland and Hungary) with an overlap onto neighboring regions. It offers a thorough comparative and multidisciplinary understanding of the historical, political, economic and cultural developments of these countries. The programme is offered either in the form of a full-time study or as a part-time study (optimized for working people and with classes on Friday afternoons). The programme focuses on comparative analysis in the following areas: political systems in the 20th century, political development since 1990, the economy, European integration, culture, and the history of society in the 19th and 20th centuries. It also offers students the chance to learn or improve their knowledge of some of the Slavonic languages of the area. Passing some subjects in German is obligatory.

The graduate of the master's programme in Central European Comparative Studies will have gained a wide range of analytical skills focused primarily, though not exclusively, on understanding the Central European region from a political, historical, economic, cultural and social point of view. Subsequently, such graduates would most likely emerge as regional analysts, diplomats, higher civil servants, employees of European institutions or territorial experts. In addition to having a mastery of English, the graduate will possess a very good knowledge of German (still the most important language of the Central European region) and a basic knowledge of at least one Slavonic language of the region.

Master in Area Studies (MAS)

Interdisciplinary programme offers expert knowledge and analytical-synthetic skills focused on modern history and current developments of Europe, Eurasia, and North America. The programme provides students with tools for social science analysis and allows them to build their own thematic and territorial profile according to their individual needs and future career plans.

Graduates of the Master in Area Studies programme will be endowed with internationally recognizable multi-disciplinary training in the study of international affairs. They will be able to analyse individual topics arising within the region of their interest from a multi-disciplinary point of view in terms of social sciences (sociology, economics, political science, and international relations) and modern history. Programme graduates will be able to understand current issues in their historical, societal, political, and economic context. Mastering several foreign languages, they will be capable of reflecting local debate and local perspectives on transnational issues. Thanks to a systematic focus on academic writing, graduates will be capable of producing texts of a high professional and formal quality. They will be able to deliver qualified comments on the developments of states and societies of the studied regions.

The programme graduates will become highly-skilled employees in the civil service and diplomacy, NGOs and international institutions as well as in private companies and mass-media. They will be well prepared for a variety of academic pursuits and will possess a wide range of knowledge and skills required in various social science fields.

The European Politics and Society (EPS)

A joint-degree programme in partnership with Leiden University, Jagiellonian University in Krakow and University Pompeu Fabra in Barcelona.

A multidisciplinary two-year programme linking the fields of European politics, contemporary history and culture, economy, international relations and policymaking. The key role of the programme is to identify and analyse challenges Europe faces today (migration, security, populism). The first semester of EPS is based on Master level introductory courses (in Prague); the second semester focuses on EU related courses (Krakow, Leiden). In the third and fourth semesters, the programme offers four different study tracks reflecting the diverse expertise of the Consortium members (Prague, Krakow, Barcelona, and Leiden). Each track combines various elective courses, research methods training, an internship and language tuition with an advanced research dissertation supervised by key staff from each Partner University.

The EPS programme gives its students the possibility to acquire high-profile pluridisciplinary knowledge and skills. The first goal of the EPS programme is to prepare a new generation of managers, policymakers and research leaders. The excellence of the programme is based on a central focus on the societal, political, economic and cultural processes that have formed contemporary Europe and its role in the international environment, the programme also fosters exchange among diverse European and non-European cultures, and offers a unique learning experience to both EU and non-EU students. EPS thus contributes to build a real trans-European community of students, experts and academia that deal with current European challenges.

The International Masters in Economy, State and Society (IMESS)

is an established two-year double-degree Master's programme offered by a consortium of leading European universities headed by University College London (UCL). The central objective of the programme is to enhance global understanding and awareness of the wider European region. As well as developing cultural and linguistic knowledge of both Eastern and Western Europe, participants acquire the skills to identify and critically analyze key factors shaping the economies, states and societies of the expanding European region. The programme offers three distinct study tracks, reflecting the unique multidisciplinary expertise of the consortium institutions: Economics and Business; Politics and Security; Nation, History and Society. Students spend their first year of study at UCL, and their second year at one of the consortium's partner universities in Continental Europe (including Charles University). Non-EU students may apply for an Erasmus Mundus Scholarship to help defray their costs, and there are also limited scholarship opportunities for EU students. Recruitment is handled by UCL. Further details are available on the IMESS website: <http://www.imess.eu>.

Geopolitical Studies (GPS)

is a two-year English-language Master's degree programme which seeks to explore the dynamic relationship between International Politics and Human Geography, focusing on essential theories, thinkers and regions. Through the core courses, students will gain the theoretical tools and the historical background to develop a deeper analysis of the geography of the world they live in, while through their elective classes (which they may choose from a wide range of up to 30 classes per semester), they are free to strengthen their knowledge in related fields and concentrate on specific regions. The programme is deliberately structured to take advantage of the multidisciplinary nature of the Institute of Political Studies and the Faculty, and students will be encouraged to make connections between different fields of study, learning to combine a Global perspective with attention to

detail and local interests. It is an excellent stepping stone in developing an academic career in the field of Political Science, as well as a valuable source of analytical skills and practical background knowledge that can be applied in professional life.

International Economic and Political Studies (IEPS)

is a two-year English language Master's degree programme which seeks to investigate contemporary political, economic and social issues from a multidisciplinary perspective. Although the predominant emphasis is on approaches from economics and political science, students will also be expected to explore historical and sociological perspectives. And in a world of omnipresent media, basic techniques for the analysis of the media will also be emphasized. Through the core courses, students will gain both the theoretical tools and the historical background to develop a deeper analysis of the world they live in, while through their elective classes (which they may choose from a wide range of up to 50 classes per semester), they are free to develop their own specialization.

The programme is deliberately structured to take advantage of the multidisciplinary nature of the Faculty, and students will be encouraged to make connections between different fields of study, learning to combine a Global perspective with attention to detail and local interests. It is an excellent stepping stone in developing an academic career in any of the Faculty's academic disciplines, as well as a valuable source of analytical skills and practical background knowledge that can be applied in professional life.

Master in International Security Studies (MISS)

is a two-year English-language Master's degree programme which offers students a complex guide through security, conflict and strategic studies in the context of international relations. It is taught by members of the Institute of Political Studies of the Faculty of Social Sciences.

The programme respects the multidisciplinary dimension of contemporary security studies but is firmly rooted in the international political aspects of the field. After initial methodological training, students will be introduced to theoretical concepts of security, conflict and strategic studies. The programme also focuses on European and transatlantic aspects of security and defense policies, regional contexts of security and conflicts, as well as specific issues of human or energy security.

Graduates of the programme are prepared to pursue careers in security-related posts in government offices and public administration, international organizations, NGOs and transnational corporations. Some might also like to pursue a doctorate and an academic career.

Master in International Relations (MAIN)

is a two-year English-language Master's degree programme which provides students with the knowledge and analytical skills to understand and explain the international context of politics, economy, and security. It is taught by members of the Institute of Political Studies of the Faculty of Social Sciences.

The world is growing ever more interdependent and major political decisions, influencing our everyday lives, are made not only by individual nation states but increasingly also by regional as well as global institutions. The programme helps students understand how international and European politics work, and what are the challenges faced by states as well as business and societal actors in the globalized world. Students learn in depth about the functioning of the European Union and of the key global institutions which states have developed to address these challenges. They study how, if at all, international conflicts can be productively transformed into cooperation. In addition to providing students with a ro-

bust background in international and European politics, the programme puts an emphasis on the development of students' analytical capabilities, abstract and critical thinking, and communication as well as language skills.

Thanks to the broad scope of competences students acquire and deepen during their studies, the programme graduates become highly valued experts in national administration and diplomacy, European and international institutions, transnational corporation and NGOs, media, think-tanks, political parties, and academia.

Public and Social Policy (PSP)

is a two-year English-language Master's degree programme which aims to provide students with current relevant knowledge of policy-making process and cultivate their analytical skills. It is taught at Charles University in Prague, Faculty of Social Sciences by members of the Institute of Sociological Studies (ISS).

In addition to theoretical knowledge about policy-making process, the programme will offer deeper knowledge in concrete policy domains such as social policy, health policy, educational policy, employment policy or others. The special attention in the programme will be given to research methodology and policy analysis skills. The combination of knowledge about policy process and methodology skills will lead to unique competences and excellent professional employment or for further studying or research career.

The graduates will acquire the knowledge and skills that enable them to effectively and efficiently perform analytical, conceptual, organizational, interactive and managing tasks in creating and implementing public and social policies within international context. By the same token, graduates will be able pursue an academic career in the Czech Republic or elsewhere. In addition, graduates will be experts in concrete policy domains, such as health policy, educational policy, employment policy or others.

Sociology in European Context (SEC)

is a two-year English-language Master's degree programme designed for students interested in gaining in-depth knowledge of the state of the present-day field including its theory and research methods. The curriculum focuses on major social processes taking place in contemporary European countries and offers opportunities for students to develop skills including data collection, analysis and interpretation while carrying out sociological research. It is taught at Faculty of Social Sciences by members of the Institute of Sociological Studies (ISS).

The lectures and seminars examine processes and phenomena of international migration, nationalism, and social inequality in terms of societal integration and the main threats to the building of a civil society in Central Europe. Further, students explore the role of elites in societies undergoing social transformation and in the building of a civil society. The programme also includes lectures and seminars on carrying out applied research (electoral, marketing etc.), and special attention is paid to developing students' critical thinking about scientific practice.

Students graduating from the programme will possess scholarly advantages including current knowledge of the major social problems facing present-day European societies, as well as a comprehensive view of contemporary sociological theory. With their understanding of both quantitative and qualitative sociological research methods, graduates can competently conduct a sociological research and cooperate effectively on both analytic and problem solving tasks, allowing them to work as a researcher, an expert, an analyst or a project manager in either the public sector and non-profit organizations, or in private companies. The programme graduates are likewise prepared to pursue a fruitful academic career.

Minimum requirements:

The Bachelor in Economics and Finance programme is open to applicants who have already completed (or are about to complete) their secondary education. All Master's degree programmes are open to students who have already completed (or are about to complete) a Bachelor's degree in a related field.

Application form for all programmes except for IMESS:

on the Faculty website – application is done online

Application deadline for all programmes except for CSF and IMESS*:

application fee: CZK 530 (approx. EUR 20)

“Early bird” deadline: February 28, 2017
Regular deadline: April 30, 2017

Application deadline for IMESS*:

July 28 (administrated by UCL London)

Application deadline for the CSF*:

April 30, 2017 (only one term)

Annual tuition fee for all programmes except for SEC and IMESS:**

EUR 6,000

Annual tuition fee for SEC:**

EUR 4.000

For full application and financial information on IMESS, please see:

Faculty of Physical Education and Sport

Charles University, Faculty of Physical Education and Sport

Jose Martiho 31, 162 52 Prague 6 - Veleslavín

Phone: +420 220 173 073, fax: +420 220 172 214

e-mail: andelova@ftvs.cuni.cz, web: <http://www.ftvs.cuni.cz/FTVSEN-9.html>

This is one of the most recent faculties of Charles University. It developed out of the Institute of Physical Education that became part of the university in 1959, and became a Faculty in 1965. The Faculty's purpose is to educate and train professionals for work in Physical Education, sports, recreation and rehabilitation.

Bachelor's Programmes:

- Physical Education and Sport (3 years)
- Specialization in Health Service - Physiotherapy (3 years)

Master's Programmes:

- Physical Education and Sport (2 years)
- Specialization in Health Service - Physiotherapy (2 years)
- MA in Sports Ethics and Integrity (MAiSI) – Erasmus Master Mundus programme (2 years)

Bachelor's Programmes: Physical Education and Sport

(3 years)

Study Branch – Physical Education and Sport. The graduates of the study branch Physical Education and Sport acquire college qualifications and competences for professional careers in a wide spectrum of physical education and sport activities, in sports clubs and physical education facilities, fitness centres, travel agencies, cultural and recreational leisure time centres, municipal offices, etc. A balanced structure of mandatory and elective courses in social and biomedical sciences, didactics of physical education, in selected sports including a cycle of ongoing and associated practices, allows students to fully cover the entire sphere of their professional interests and choose among the offered courses of study. The studies culminate with a defense of the baccalaureate thesis and a state Bachelor's final examination. Graduates of Bachelor's studies can continue in the Master's Physical Education and Sport programme (post Bachelor).

Bachelor's Programme: Specialization in Health Service

(3 years)

Study Branch – Physiotherapy. In the Physical Therapy study branch graduates acquire professional qualification for performing non-medical health care activities of physical therapists, and are authorized to perform activities in accord with the valid legislation of the Czech Republic (CR), which stipulates the activities of health care workers and other professional workers on health care. A Bachelor's programme graduate is an expert in the field of physical therapy who works together with all the members of a health care team in the coordination and execution of diagnostic, therapeutic, and preventive procedures and methods in the rehabilitation process and in care of the ailing.

The graduate will find work in state and private health care facilities such as therapeutic rehabilitation clinics, other specialized clinics, rehabilitation institutions, rehabilitation departments in hospitals of all types, spas, and facilities for treatment of pain, social facilities for children and seniors, and other specialized workplaces. The studies culminate with a defense of the baccalaureate thesis and the state Bachelor's final examination. Bachelor's studies graduates can continue in the Physical Therapy Master's programme (post Bachelor).

Master's Programme: Physical Education and Sport (2 years)

Study Branch - Physical Education and Sport. The Master's programme Physical Education and Sport (post Bachelor) ensures college qualification for a broad spectrum of professional occupations in the field of Physical Education and sport. It prepares university-trained teachers for elementary, middle, and higher education institutions, trainers and potential candidates for further doctoral studies or work in the area of science and research. A balanced structure of mandatory and elective courses allows students to fully cover the entire sphere of their professional interests. The studies culminate with a defense of the Master's thesis and a state final examination.

Master's Programme: Specialization in Health Service (2 years)

Study Branch – Physiotherapy. Preparation of non-medical health care workers, following the acquisition of specialist qualifications for the performance of health care vocations – as physical therapists, following completion of a Bachelor's programme in the field of physical therapy, is fully in accord with the valid legislation of CR (Law No. 96/2004 Coll. and associated procedural regulations). The studies expand the knowledge and skills

acquired through completion of Bachelor's studies in the field of physical therapy and focus the physical therapist on acquiring specialized physical therapy care. Exercise of the vocation of physical therapist – graduate of the Master's programme - is seen as within the framework of preventive, diagnostic, therapeutic, and rehabilitative care in the field of Physical Therapy. It prepares a potential candidate for further doctoral studies or work in the field of science and research.

The studies culminate with a defense of the Master's thesis and a state final examination.

Erasmus Master Mundus programme:

MA in Sports Ethics and Integrity (MAiSI) (2 years)

The MA in Sports Ethics and Integrity is a two-year Master's programme offered by a consortium of six European universities, coordinated by Swansea University (United Kingdom). Other partners are: Charles University (Czech Republic), KU Leuven (Belgium), University of Peloponnese (Greece), Pompeu Fabra University (Spain), Johannes Gutenberg University Mainz (Germany).

The MA in Sports Ethics and Integrity represents a coherent and integrated interdisciplinary programme responding to the multidisciplinary nature of the problems manifest in sport governance. The partners have been selected according to their contributory areas of expertise, and form a team of co-workers and co-researchers dedicated to the exploration of issues and solutions in sports governance, ethics and integrity. The MA aims to develop in students high-level transferable skills, sensitivity to issues of ethics and integrity, and the skills, tools and resources to devise policy and implement sound practice. The MA is at a high theoretical level, but always relevant to the requirements of practical contexts, policy development and decision-making.

Applicants may apply for Erasmus Mundus Scholarships.

Admissions are handled by Swansea University.

For further information and admission, see the link: <http://www.maisi-project.eu/>

General Admission requirements are described at: <http://www.ftvs.cuni.cz/FTVSEN-42.html>

Application form: <http://www.ftvs.cuni.cz/FTVSEN-42.html>

Application deadline*: May 31, 2017 (Physical Education and Sport; Physiotherapy)
March 9, 2017 (MAiSI – for applicants requiring EU funding)
July 15, 2017 (MAiSI – self-paying applicants)

Annual tuition fee:** EUR 5,900/ CZK 160,000 (Physical Education and Sport)
EUR 8,150/ CZK 220,000 (Physiotherapy)
EUR 4,500 (EU residents)/ EUR 9,000 (Non-EU) (MAiSI)

Faculty of Humanities

Charles University, Faculty of Humanities

U Kříže 8, 158 00, Jinonice, Prague 5, Czech Republic

Phone: +420 251 080 211, e-mail: study@fhs.cuni.cz, international@fhs.cuni.cz

cuni.cz web: <http://fhs.cuni.cz/FHSENG-1.html>

Originally founded as the Institute for Liberal Education of the Charles University in 1994, the Faculty of Humanities of the Charles University gained full academic autonomy in 2000. It was established to provide study programmes at the Bachelor's, Master's and Ph.D. levels previously not available at the university. Its main research and academic focus is the Humanities and Social and Cultural Anthropology.

Bachelor's Programme:

- Liberal Arts and Humanities (3 years)

Master's Programmes:

- Deutsche und französische Philosophie (2 years, German)
- Historical Sociology (2 years, English)
- Oral History – Contemporary History (2 years, English)
- Gender Studies (2 years, English)

Bachelor's Programme Liberal Arts and Humanities (3 years, English)

The Bachelor Degree study of Liberal Arts and Humanities is a university field of study in the humanities that is centered around philosophical, historical, and cultural and social anthropology. The programme's significant feature is a widely opened study schedule that gives students an opportunity to focus on their individual abilities and interests. Every student completes mandatory courses in general humanities and social sciences and passes comprehensive exams relevant to each field. By properly choosing other courses during their study, they can gradually specialize and focus either on further (Master's) study in any of the relative theoretical branches, or on the use of acquired skills in practice. The study programme is divided into two segments, the theoretical segment and the application segment, and into six sub-modules: the theoretical segment includes the social science, the historical and the philosophical modules; the application segment is comprised of the communicative, the creative and the qualified skills modules. The head of each particular module is responsible for selection and quality of offered courses.

German and French Philosophy (German)

The study programme "German and French Philosophy" ("Deutsche und französische Philosophie") offers a two-year master's study programme to students who are chosen by an entrance exam at the CU FH. The study programme is aimed especially at classical and modern German philosophy, 19th and 20th century French philosophy and German and French phenomenology. The language of instruction is German and the tuition only takes place at the CU FH. The students may benefit especially from individual approach and small work groups in seminars.

Historical Sociology (English)

The aim of the study programme of historical sociology is to cultivate research activities and the education of experts with a specialization in the issues of long-term social pro-

cesses and trends that have a significant impact on life of contemporary societies. Above all, it deals with the problems of modernization and social change, globalization trends and influences, integration and disintegration processes, relationship of continuity and discontinuity, religious and cultural pluralism, linking the global to the local, identification of the chances and risks of social development, analysis of conflict situations and the possibility of overcoming them.

The need for understanding of all of these issues invokes the need for the development of adequate theoretical and methodological approaches, and also of the specific training of university students.

Oral History and Contemporary History (English)

The two-year Master Study Programme in Oral History and Contemporary History is intended for students interested in contemporary (European) history, in interviewing methodologies and in interpretative methods. Its main aim is to train students to conduct research through creating and analyzing interviews, and developing fieldwork projects to address those historical and contemporary issues that require interdisciplinary investigation.

The Master is divided into two sections, the first covers contemporary (Czech and international) history and events, the second is methodological and focuses on various interviewing techniques through which we can study contemporary history. It binds together two general approaches of studying history, the macro and micro approaches, and enables a thorough understanding of recent events in history. The Master Study Programme in Oral and Contemporary History has practical applications in academic and university research, historic preservation and legal and human rights work.

Gender Studies (English)

The philosophy of M.A. programme in Gender Studies rests in offering the opportunity for a systematic and interdisciplinary academic study of theoretical and methodological tools for researching and exploring gender issues in historical perspective, with a consideration of cultural and ethnic aspects of any given topic. Gender studies applies intersectional and interdisciplinary perspectives on gender as one of the basic principles organizing human society and culture. Gender studies focus on analysis of historical as well as contemporary manifestations of gender order; influence of feminist and queer theories and methods in science and research and other aspects of gender order; they also probe the relationship between gender and other categories of social differentiation and stratification such as race/ethnicity, social status, age, sexuality, and/or disability.

General information for applicants at: <http://fhs.cuni.cz/FHSENG-314.html>

Application form: <https://is.cuni.cz/studium/eng/login.php?do=prihlaska>

Application deadline*: March 31, 2017
August 11, 2017 (Extended deadline for graduate programs
Deutsche und französische Philosophie, Gender Studies,
Historical Sociology)

Annual tuition fee:** EUR 2,000 (programmes in English) EUR 200
(programme in German)

Protestant Theological Faculty

Charles University, Protestant Theological Faculty

Černá 9, P.O.Box 529, 115 55 Praha, Czech Republic,

Phone: +420 221 988 211 or -621, fax: +420 221 988 215

e-mail: intl@etf.cuni.cz or studijni@etf.cuni.cz, web: <http://web.etf.cuni.cz/ETFENG-I.html>

The Protestant Theological Faculty was established by a law of the Czechoslovak Republic on 8 April 1919 and was originally called the Hus Czechoslovak Evangelical Faculty of Theology. It was incorporated into Charles University in 1990. It offers programmes in Protestant theology and in social work, and trains men and women to work in the ordained ministry in churches, and various social work fields. Graduates from this Faculty also work in a wide range of settings where training in the humanities is called for.

The Master's Programme in Protestant Theology

This two-year programme is open to those who already have a Bachelor's degree in theology and have passed an examination in Greek, Hebrew, and Latin. It enables students to deepen their theological knowledge in the fields of New Testament Studies, Old Testament Studies, Church History, Systematic Theology, Practical Theology, Theological Ethics, Religious Studies, and Philosophy. It is taught in English and course fees are currently 25,000 CZK per year. Students must follow the course full-time in Prague. Those successfully completing the programme will be awarded a Master's degree by Charles University.
