
Inter-University and Faculty Agreements

Charles University concludes **inter-university and faculty agreements** with partner institutions abroad. Based on these agreements, CU degree students can spend a semester or a full academic year abroad **without paying tuition fees**. Some agreements also offer opportunities for internships, research stays, language courses, and winter/summer schools.

The main sources of funding for study abroad are the Charles University **Mobility Fund** and **faculty resources**. All the necessary information can be found on the pages dedicated to inter-university and faculty agreements.

Inter-university agreements are managed by the Rectorate's International Relations Office and are open to **students of the participating faculties**. Faculty agreements are arranged by the international office of the respective faculty. On the map, you can filter your options according to your faculty.

Attention! The offer of faculty agreements may vary depending on individual institutes or departments within the faculty. Always check your specific options with your faculty's international office.
