
Mobile application CharlesUni

Starting this academic year, we have launched a new Charles University app for all students, teachers, other employees, and anyone considering studying at Charles University. You can download the app from the [App Store](#) or [Google Play](#). You can send your suggestions for text edits within your area of responsibility to the application administrator: barbora.pergl.buricova@ruk.cuni.cz.

What can you expect from the app?

Students can look forward to:

- A clear overview of their current schedule
- A list of all courses they are enrolled in and information about them (syllabi, required reading, instructors)
- A summary of their study results and grades
- A clear list of all exam dates for planning the exam period
- The option to register for and cancel exam dates
- Immediate information about new grades entered by teachers
- Help with how to address teachers
- Important news from the university or faculty
- Guide to CharlesUni– important information in one place
- Notifications in case of emergency
- Map of all important university buildings (or those where classes are held)
- Clear signposts to other CU web applications
- Integration of the university library reader account: display of a list of loans, including return or pickup dates, without the need to log in, notification before the return date
- *Coming soon: Connection to cafeterias*
- *Coming soon: Notification center – notifications of new exam dates and exam date releases, notifications of the start of exam date registration and the approaching end of registration/cancellation*

Teachers will find the following in the application:

- A display of all courses taught and information about them
- A clear schedule with courses and exam dates, including a display of the current time
- Important news from the university or faculty
- Guide to CharlesUni– important information for employees in one place
- A map of all important university buildings (or those where classes are held)
- A clear signpost to other web applications
- Notifications in case of an emergency

- *Coming soon: connection to cafeterias*

For other employees, the application offers the following features:

- Notifications in case of an emergency
- Important news from the university or faculty
- Guide to CharlesUni– important information for employees in one place
- Map of all important university buildings (or those where classes are held)
- Clear signposts to other web applications

- *Coming soon: connection to cafeterias*

For those who want to study at Charles University, we have prepared:

- Important news from the university or faculty
- Guide to CharlesUni– important information for applicants in one place
- Map of all important university buildings (or those where classes are held)
- A clear directory of important websites

Download from the [App Store](#) or [Google Play](#) . You can find the option to provide feedback or report any problems or shortcomings directly in the application. You can send your suggestions for text edits within your area of responsibility to the application administrator: barbora.pergl.buricova@ruk.cuni.cz .

CharlesUni at your fingertips!
